361 Global Equity Absolute Return Fund  
Investor Class (AGRQX), Class I (AGRZX) & Class Y (AGRWX)

*A series of Investment Managers Series Trust*

This Statement of Additional Information (the “SAI”) is not a prospectus, and it should be read in conjunction with the Prospectus dated December 31, 2018, as may be amended from time to time, of the 361 Global Equity Absolute Return Fund (the “Fund”), a series of Investment Managers Series Trust (the “Trust”). 361 Capital, LLC (the “Advisor”) is the investment advisor to the Fund. Wells Capital Management, Inc. (formerly, Analytic Investors, LLC) (“WellsCap” or “Sub-Advisor”) is the sub-advisor to the Fund. A copy of the Fund’s Prospectus may be obtained by contacting the Fund at the address or telephone number specified below.

## **THE TRUST AND THE FUND**

The Trust is an open-end management investment company organized as a Delaware statutory trust under the laws of the State of Delaware on February 15, 2005. The Trust currently consists of several other series of shares of beneficial interest. This SAI relates only to the Fund and not to the other series of the Trust.

The Trust is registered with the Securities and Exchange Commission (“SEC”) as an open-end management investment company. Such a registration does not involve supervision of the management or policies of the Fund. The Prospectus of the Fund and this SAI omit certain of the information contained in the Registration Statement filed with the SEC. Copies of such information may be obtained from the SEC upon payment of the prescribed fee.

The Fund is classified as a diversified fund, which means it is subject to the diversification requirements under the Investment Company Act of 1940, as amended (the “1940 Act”). Under the 1940 Act, a diversified fund may not, with respect to 75% of its total assets, invest more than 5% of its total assets in the securities of one issuer (and in not more than 10% of the outstanding voting securities of an issuer), excluding cash, Government securities, and securities of other investment companies.

The Fund currently offers Investor Class, Class I shares and Class Y shares. Other classes may be established from time to time in accordance with the provisions of the Trust’s Agreement and Declaration of Trust (the “Declaration of Trust”). Each class of shares of the Fund generally is identical in all respects except that each class of shares is subject to its own distribution expenses and minimum investments. Each class of shares also has exclusive voting rights with respect to its distribution fees.

### **INVESTMENT STRATEGIES, POLICIES AND RISKS**

The discussion below supplements information contained in the Fund’s Prospectus pertaining to the investment policies of the Fund.

#### **PRINCIPAL INVESTMENT STRATEGIES, POLICIES AND RISKS**

#### **EQUITY SECURITIES**

##### **Common Stock**

The Fund may invest in common stock. Common stock represents an equity (ownership) interest in a company, and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company’s stock price.

The fundamental risk of investing in common stock is that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. While common stocks have historically provided greater long-term returns than preferred stocks, fixed-income and money market investments, common stocks have also experienced significantly more volatility than the returns from those other investments.

## **Preferred Stock**

The Fund may invest in preferred stock. Preferred stock is a class of stock having a preference over common stock as to the payment of dividends and a share of the proceeds resulting from the issuer's liquidation although preferred stock is usually subordinate to the debt securities of the issuer. Some preferred stocks also entitle their holders to receive additional liquidation proceeds on the same basis as the holders of the issuer's common stock. Preferred stock typically does not possess voting rights and its market value may change based on changes in interest rates. If interest rates rise, the fixed dividend on preferred stocks may be less attractive, causing the price of preferred stocks to decline. Preferred stock may have mandatory sinking fund provisions, as well as call/redemption provisions prior to maturity, a negative feature when interest rates decline. In addition, the Fund may receive stocks or warrants as a result of an exchange or tender of fixed income securities. Preference stock, which is more common in emerging markets than in developed markets, is a special type of common stock that shares in the earnings of an issuer, has limited voting rights, may have a dividend preference, and may also have a liquidation preference. Depending on the features of the particular security, holders of preferred and preference stock may bear the risks regarding common stock or fixed income securities.

The Fund's investment in preferred stocks is subject to the credit risk related to the financial condition of the issuers of those securities. Credit ratings attempt to evaluate the safety of principal and dividend or interest payments and do not evaluate the risks of fluctuations in market value.

## **Warrants and Rights**

The Fund may invest in warrants or rights (including those acquired in units or attached to other securities) that entitle (but do not obligate) the holder to buy equity securities at a specific price for a specific period of time but will do so only if such equity securities are deemed appropriate by the Advisor or a Sub-Advisor. Rights are similar to warrants but typically have a shorter duration and are issued by a company to existing stockholders to provide those holders the right to purchase additional shares of stock at a later date. Warrants and rights do not have voting rights, do not earn dividends, and do not entitle the holder to any rights with respect to the assets of the company that has issued them. They do not represent ownership of the underlying companies but only the right to purchase shares of those companies at a specified price on or before a specified exercise date. Warrants and rights tend to be more volatile than the underlying stock, and if at a warrant's expiration date the stock is trading at a price below the price set in the warrant, the warrant will expire worthless. Conversely, if at the expiration date the stock is trading at a price higher than the price set in the warrant or right, the Fund can acquire the stock at a price below its market value. The prices of warrants and rights do not necessarily parallel the prices of the underlying securities. An investment in warrants or rights may be considered speculative.

## **Small- and Mid-Cap Stocks**

The Fund may invest in stock of companies with market capitalizations that are small compared to other publicly traded companies. Investments in larger companies present certain advantages in that such companies generally have greater financial resources, more extensive research and development, manufacturing, marketing and service capabilities, and more stability and greater depth of management and personnel. Investments in smaller, less seasoned companies may present greater opportunities for growth but also may involve greater risks than customarily are associated with more established companies. The securities of smaller companies may be subject to more abrupt or erratic market movements than larger, more established companies. These companies may have limited product lines, markets or financial resources, or they may be dependent upon a limited management group. Their securities may be traded in the over-the-counter market or on a regional exchange, or may otherwise have limited liquidity. As a result of owning large positions in this type of security, the Fund is subject to the additional risk of possibly having to sell portfolio securities at disadvantageous times and prices if redemptions require to liquidate its securities positions. In addition, it may be prudent for the Fund, as its asset size grows, to limit the number of relatively small positions it holds in securities having limited liquidity in order to minimize its exposure to such risks, to minimize transaction costs, and to maximize the benefits of research. As a consequence, as the Fund's asset size increases, the Fund may reduce its exposure to illiquid small capitalization securities, which could adversely affect performance.

The Fund may also invest in stocks of companies with medium market capitalizations (i.e., mid-cap companies). Such investments share some of the risk characteristics of investments in stocks of companies with small market capitalizations described above, although mid cap companies tend to have longer operating histories, broader product lines and greater financial resources and their stocks tend to be more liquid and less volatile than those of smaller capitalization issuers.

## **FOREIGN INVESTMENTS**

The Fund may make foreign investments. Investments in the securities of foreign issuers and other non-U.S. investments may involve risks in addition to those normally associated with investments in the securities of U.S. issuers or other U.S. investments. All foreign investments are subject to risks of foreign political and economic instability, adverse movements in foreign exchange rates, and the imposition or tightening of exchange controls and limitations on the repatriation of foreign capital. Other risks stem from potential changes in governmental attitude or policy toward private investment, which in turn raises the risk of nationalization, increased taxation or confiscation of foreign investors' assets.

The financial problems in global economies over the past several years, including the European sovereign debt crisis, may continue to cause high volatility in global financial markets. In addition, global economies are increasingly interconnected, which increases the possibilities that conditions in one country or region might adversely impact a different country or region. The severity or duration of these conditions may also be affected if one or more countries leave the Euro currency or by other policy changes made by governments or quasi-governmental organizations.

Additional non-U.S. taxes and expenses may also adversely affect the Fund's performance, including foreign withholding taxes on foreign securities' dividends. Brokerage commissions and other transaction costs on foreign securities exchanges are generally higher than in the United States. Foreign companies may be subject to different accounting, auditing and financial reporting standards. To the extent foreign securities held by the Fund are not registered with the SEC or with any other U.S. regulator, the issuers thereof will not be subject to the reporting requirements of the SEC or any other U.S. regulator. Accordingly, less information may be available about foreign companies and other investments than is generally available on issuers of comparable securities and other investments in the United States. Foreign securities and other investments may also trade less frequently and with lower volume and may exhibit greater price volatility than U.S. securities and other investments.

Changes in foreign exchange rates will affect the value in U.S. Dollars of any foreign currency-denominated securities and other investments held by the Fund. Exchange rates are influenced generally by the forces of supply and demand in the foreign currency markets and by numerous other political and economic events occurring outside the United States, many of which may be difficult, if not impossible, to predict.

Income from any foreign securities and other investments will be received and realized in foreign currencies, and the Fund is required to compute and distribute income in U.S. Dollars. Accordingly, a decline in the value of a particular foreign currency against the U.S. Dollar occurring after The Fund's income has been earned and computed in U.S. Dollars may require the Fund to liquidate portfolio securities or other investments to acquire sufficient U.S. Dollars to make a distribution. Similarly, if the exchange rate declines between the time the Fund incurs expenses in U.S. Dollars and the time such expenses are paid, the Fund may be required to liquidate additional portfolio securities or other investments to purchase the U.S. Dollars required to meet such expenses.

The Fund may purchase foreign bank obligations. In addition to the risks described above that are generally applicable to foreign investments, the investments that the Fund makes in obligations of foreign banks, branches or subsidiaries may involve further risks, including differences between foreign banks and U.S. banks in applicable accounting, auditing and financial reporting standards, and the possible establishment of exchange controls or other foreign government laws or restrictions applicable to the payment of certificates of deposit or time deposits that may affect adversely the payment of principal and interest on the securities and other investments held by the Fund.

### **Depository Receipts**

The Fund may invest in depository receipts. American Depository Receipts ("ADRs") are negotiable receipts issued by a U.S. bank or trust company that evidence ownership of securities in a foreign company which have been deposited with such bank or trust company's office or agent in a foreign country. European Depository Receipts ("EDRs") are negotiable certificates held in the bank of one country representing a specific number of shares of a stock traded on an exchange of another country. Global Depository Receipts ("GDRs") are negotiable certificates held in the bank of one country representing a specific number of shares of a stock traded on an exchange of another country. Canadian Depository Receipts ("CDRs") are negotiable receipts issued by a Canadian bank or trust company that evidence

ownership of securities in a foreign company which have been deposited with such bank or trust company's office or agent in a foreign country.

Investing in ADRs, EDRs, GDRs, and CDRs presents risks that may not be equal to the risk inherent in holding the equivalent shares of the same companies that are traded in the local markets even though the Fund will purchase, sell and be paid dividends on ADRs in U.S. Dollars. These risks include fluctuations in currency exchange rates, which are affected by international balances of payments and other economic and financial conditions; government intervention; speculation; and other factors. With respect to certain foreign countries, there is the possibility of expropriation or nationalization of assets, confiscatory taxation, political and social upheaval, and economic instability. The Fund may be required to pay foreign withholding or other taxes on certain ADRs, EDRs, GDRs, or CDRs that it owns, but investors may or may not be able to deduct their pro-rata share of such taxes in computing their taxable income, or take such shares as a credit against their U.S. federal income tax. See "Federal Income Tax Matters." ADRs, EDRs, GDRs, and CDRs may be sponsored by the foreign issuer or may be unsponsored. Unsponsored ADRs, EDRs, GDRs, and CDRs are organized independently and without the cooperation of the foreign issuer of the underlying securities. Unsponsored ADRs, EDRs, GDRs, and CDRs are offered by companies which are not prepared to meet either the reporting or accounting standards of the United States. While readily exchangeable with stock in local markets, unsponsored ADRs, EDRs, GDRs, and CDRs may be less liquid than sponsored ADRs, EDRs, GDRs, and CDRs. Additionally, there generally is less publicly available information with respect to unsponsored ADRs, EDRs, GDRs, and CDRs.

## **DERIVATIVES**

The Fund may utilize a variety of derivatives contracts, such as swaps, both for investment purposes and for hedging purposes. Hedging involves special risks including the possible default by the other party to the transaction, illiquidity and, to the extent the Advisor's assessment of certain market movements is incorrect, the risk that the use of hedging could result in losses greater than if hedging had not been used. Nonetheless, with respect to certain investment positions, the Fund may not be sufficiently hedged against market fluctuations, in which case an investment position could result in a loss greater than if the Advisor had been sufficiently hedged with respect to such position.

The Advisor will not, in general, attempt to hedge all market or other risks inherent in the Fund's positions, and may hedge certain risks, if at all, only partially. Specifically, the Advisor may choose not, or may determine that it is economically unattractive, to hedge certain risks, either in respect of particular positions or in respect of the Fund's overall portfolio. Moreover, it should be noted that the Fund's portfolio always will be exposed to unidentified systematic risk factors and to certain risks that cannot be completely hedged, such as credit risk (relating both to particular securities and to counterparties). The Fund's portfolio composition may result in various directional market risks remaining unhedged, although the Advisor may rely on diversification to control such risks to the extent that the Advisor believes it is desirable to do so.

Recent legislation calls for new regulation of the derivatives markets. The extent and impact of the regulation is not yet fully known and may not be for some time. New regulations could adversely affect the value, availability and performance of certain derivative instruments, may make them more costly, and may limit or restrict their use by the Fund.

Certain additional risk factors related to derivatives are discussed below:

Derivatives Risk. Under recently adopted rules by the Commodity Futures Trading Commission ("CFTC"), transactions in some types of interest rate swaps and index credit default swaps on North American and European indices will be required to be cleared. In a cleared derivatives transaction, the Fund's counterparty is a clearing house (such as CME Clearing, ICE Clearing or LCH.Clearnet), rather than a bank or broker. Since the Fund is not a member of clearing houses and only members of a clearing house can participate directly in the clearing house, the Fund will hold cleared derivatives through accounts at clearing members, who are futures commission merchants that are members of the clearing houses and who have the appropriate regulatory approvals to engage in swap transactions. The Fund will make and receive payments owed under cleared derivatives transactions (including margin payments) through its accounts at clearing members. Clearing members guarantee performance of their clients' obligations to the clearing house. In contrast to bilateral derivatives transactions, following a period of advance notice to the Fund, clearing

members generally can require termination of existing cleared derivatives transactions at any time and increases in margin above the margin that it required at the beginning of a transaction. Clearing houses also have broad rights to increase margin requirements for existing transactions and to terminate transactions. Any such increase or termination could interfere with the ability of the Fund to pursue its investment strategy. Also, the Fund is subject to execution risk if it enters into a derivatives transaction that is required to be cleared (or that the Advisor expects to be cleared), and no clearing member is willing or able to clear the transaction on the Fund's behalf. While the documentation in place between the Fund and its clearing members generally provides that the clearing members will accept for clearing all transactions submitted for clearing that are within credit limits specified by the clearing members in advance, the Fund could be subject to this execution risk if the Fund submits for clearing transactions that exceed such credit limits, if the clearing house does not accept the transactions for clearing, or if the clearing members do not comply with their agreement to clear such transactions. In that case, the transaction might have to be terminated, and the Fund could lose some or all of the benefit of any increase in the value of the transaction after the time of the transaction. In addition, new regulations could, among other things, restrict the Fund's ability to engage in, or increase the cost to the Fund of, derivatives transactions, for example, by making some types of derivatives no longer available to the Fund or increasing margin or capital requirements. If the Fund is not able to enter into a particular derivatives transaction, the Fund's investment performance and risk profile could be adversely affected as a result.

Counterparty Risk. Counterparty risk with respect to OTC derivatives may be affected by new regulations promulgated by the CFTC and SEC affecting the derivatives market. As described under "Derivatives Risk" above, some derivatives transactions will be required to be cleared, and a party to a cleared derivatives transaction is subject to the credit risk of the clearing house and the clearing member through which it holds its cleared position, rather than the credit risk of its original counterparty to the derivative transaction. Clearing members are required to segregate all funds received from customers with respect to cleared derivatives transactions from the clearing member's proprietary assets. However, all funds and other property received by a clearing broker from its customers are generally held by the clearing broker on a commingled basis in an omnibus account, which may also invest those funds in certain instruments permitted under the applicable regulations. The assets of the Fund might not be fully protected in the event of the bankruptcy of the Fund's clearing member because the Fund would be limited to recovering only a pro rata share of all available funds segregated on behalf of the clearing broker's customers for a relevant account class. Also, the clearing member transfers to the clearing house the amount of margin required by the clearing house for cleared derivatives transactions, which amounts are generally held in an omnibus account at the clearing house for all customers of the clearing member. For commodities futures positions, the clearing house may use all of the collateral held in the clearing member's omnibus account to meet a loss in that account, without regard to which customer in fact supplied that collateral. Accordingly, in addition to bearing the credit risk of its clearing member, each customer to a futures transaction also bears "fellow customer" risk from other customers of the clearing member. However, with respect to cleared swaps positions, recent regulations promulgated by the CFTC require that the clearing member notify the clearing house of the amount of initial margin provided by the clearing member to the clearing house that is attributable to each customer. Because margin in respect of cleared swaps must be earmarked for specific clearing member customers, the clearing house may not use the collateral of one customer to cover the obligations of another customer. However, if the clearing member does not provide accurate reporting, the Fund is subject to the risk that a clearing house will use the Fund's assets held in an omnibus account at the clearing house to satisfy payment obligations of a defaulting customer of the clearing member to the clearing house. In addition, a clearing member may generally choose to provide to the clearing house the net amount of variation margin required for cleared swaps for all of the clearing member's customers in the aggregate, rather than the gross amount of each customer. The Fund is therefore subject to the risk that a clearing house will not make variation margin payments owed to the Fund if another customer of the clearing member has suffered a loss and is in default.

## **Swap Transactions**

The Fund may enter into interest rate, currency and index swaps and the purchase or sale of related caps, floors and collars. The Fund may enter into these transactions to preserve a return or spread on a particular investment or portion of its portfolio, to protect against currency fluctuations or to protect against any increase in the price of securities it anticipates purchasing at a later date. Swaps may be used in conjunction with other instruments to offset interest rate, currency or other underlying risks. For example, interest rate swaps may be offset with "caps," "floors" or "collars". A "cap" is essentially a call option which places a limit on the amount of floating rate interest that must be paid on a certain principal amount. A "floor" is essentially a put option which places a limit on the minimum amount that would

be paid on a certain principal amount. A “collar” is essentially a combination of a long cap and a short floor where the limits are set at different levels.

The Fund will usually enter into swaps on a net basis; that is, the two payment streams will be netted out in a cash settlement on the payment date or dates specified in the instrument, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. To the extent obligations created thereby may be deemed to constitute senior securities, the Fund will maintain required collateral in a segregated account consisting of U.S. government securities or cash or cash equivalents.

Total Return Swaps. The Fund may enter into total return swap contracts for investment purposes. Total return swaps are contracts in which one party agrees to make periodic payments based on the change in market value of the underlying assets, which may include a specified security, basket of securities or security indexes during the specified period, in return for periodic payments based on a fixed or variable interest rate of the total return from other underlying assets. Total return swaps may be used to obtain exposure to a security or market without owning or taking physical custody of such security or market, including in cases in which there may be disadvantages associated with direct ownership of a particular security. In a typical total return equity swap, payments made by the Fund or the counterparty are based on the total return of a particular reference asset or assets (such as an equity security, a combination of such securities, or an index). That is, one party agrees to pay another party the return on a stock, basket of stocks, or stock index in return for a specified interest rate. By entering into an equity index swap, for example, the index receiver can gain exposure to stocks making up the index of securities without actually purchasing those stocks. Total return swaps involve not only the risk associated with the investment in the underlying securities, but also the risk of the counterparty not fulfilling its obligations under the agreement.

## **SHORT SALES**

The Fund may seek to hedge investments or realize additional gains through the use of short sales. A short sale is a transaction in which the Fund sells a security it does not own in anticipation that the market price of that security will decline. If the price of the security sold short increases between the time of the short sale and the time the Fund replaces the borrowed security, the Fund will incur a loss; conversely, if the price declines, the Fund will realize a capital gain. Any gain will be decreased, and any loss will be increased, by the transaction costs incurred by the Fund, including the costs associated with providing collateral to the broker-dealer (usually cash and liquid securities) and the maintenance of collateral with its custodian. The Fund also may be required to pay a premium to borrow a security, which would increase the cost of the security sold short. Although the Fund’s gain is limited to the price at which it sold the security short, its potential loss is theoretically unlimited.

The broker-dealer will retain the net proceeds of the short sale to the extent necessary to meet margin requirements until the short position is closed out.

When the Advisor believes that the price of a particular security held by the Fund may decline, it may make “short sales against the box” to hedge the unrealized gain on such security. Selling short against the box involves selling a security which the Fund owns for delivery at a specified date in the future. The Fund will incur transaction costs to open, maintain and close short sales against the box.

To the extent the Fund sells securities short (except in the case of short sales “against the box”), it is required to segregate an amount of cash or liquid securities on its records equal to the market price of the securities sold short. The segregated assets are marked to market daily in an attempt to ensure that the amount deposited in the segregated account is at least equal to the market value of the securities sold short. Segregated securities cannot be sold while the position they are covering is outstanding, unless they are replaced with similar securities. As a result, there is the possibility that segregation of a large percentage of the Fund’s assets could affect its portfolio management.

## OTHER INVESTMENT STRATEGIES, POLICIES AND RISKS

### FOREIGN INVESTMENTS

#### Emerging Markets

The Fund may invest in companies organized or doing substantial business in emerging market countries or developing countries as defined by the World Bank, International Financial Corporation or the Morgan Stanley Capital International (MSCI) emerging market indices or other comparable indices. Developing countries may impose restrictions on the Fund's ability to repatriate investment income or capital. Even where there is no outright restriction on repatriation of investment income or capital, the mechanics of repatriation may affect certain aspects of the operations of the Fund.

Some of the currencies in emerging markets have experienced devaluations relative to the U.S. Dollar, and major adjustments have been made periodically in certain of such currencies. Certain developing countries face serious exchange constraints.

Governments of some developing countries exercise substantial influence over many aspects of the private sector. In some countries, the government owns or controls many companies. Therefore, government actions in the future could have a significant effect on economic conditions in developing countries, which could affect the private sector companies in which the Fund invests.

#### Foreign Currency Transactions

The Fund may conduct foreign currency exchange transactions either on a spot, i.e., cash basis at the prevailing rate in the foreign exchange market or by entering into a forward foreign currency contract. A forward foreign currency contract ("forward contract") involves an obligation to purchase or sell a specific amount of a specific currency at a future date, which may be any fixed number of days (usually less than one year) from the date of the contract agreed upon by the parties, at a price set at the time of the contract. Forward contracts are considered to be derivatives. The Fund enters into forward contracts in order to "lock in" the exchange rate between the currency it will deliver and the currency it will receive for the duration of the contract. In addition, the Fund may enter into forward contracts to hedge against risks arising from securities the Fund owns or anticipates purchasing or the U.S. Dollar value of interest and dividends paid on those securities.

If the Fund delivers the foreign currency at or before the settlement of a forward contract, it may be required to obtain the currency by selling some of the Fund's assets that are denominated in that specific currency. The Fund may close out a forward contract obligating it to purchase a foreign currency by selling an offsetting contract, in which case it will realize a gain or a loss.

Foreign currency transactions involve certain costs and risks. The Fund incurs foreign exchange expenses in converting assets from one currency to another. Forward contracts involve a risk of loss if the Advisor or a Sub-Advisor is inaccurate in predicting currency movements. The projection of short-term currency market movements is extremely difficult, and the successful execution of a short-term hedging strategy is highly uncertain. The precise matching of forward contract amounts and the value of the securities involved is generally not possible. Accordingly, it may be necessary for the Fund to purchase additional foreign currency if the market value of the security is less than the amount of the foreign currency the Fund is obligated to deliver under the forward contract and the decision is made to sell the security and deliver the foreign currency. The use of forward contracts as a hedging technique does not eliminate the fluctuation in the prices of the underlying securities the Fund owns or intends to acquire, but it fixes a rate of exchange in advance. Although forward contracts can reduce the risk of loss if the values of the hedged currencies decline, these instruments also limit the potential gain that might result from an increase in the value of the hedged currencies.

There is no systematic reporting of last sale information for foreign currencies, and there is no regulatory requirement that quotations available through dealers or other market sources be firm or revised on a timely basis. Quotation information available is generally representative of very large transactions in the interbank market. The interbank market in foreign currencies is a global around-the-clock market. Since foreign currency transactions occurring in the interbank market involve substantially larger amounts than those that may be involved in the use of foreign currency options, the Fund may be disadvantaged by having to deal in an odd lot market (generally consisting of transactions of less than \$1 million) for the underlying foreign currencies at prices that are less favorable than for round lots. The Fund may take

positions in options on foreign currencies in order to hedge against the risk of foreign exchange fluctuation on foreign securities the Fund holds in its portfolio or which it intends to purchase.

## INVESTMENT COMPANY SECURITIES

The Fund may invest in shares of other investment companies (each, an “Underlying Fund”), including open-end funds, closed-end funds, UITs and ETFs, to the extent permitted by applicable law and subject to certain restrictions set forth in this SAI.

Under Sections 12(d)(1)(A) and 12(d)(1)(B) of the 1940 Act, the Fund and any companies controlled by the Fund may hold securities of an Underlying Fund in amounts which (i) do not exceed 3% of the total outstanding voting stock of such Underlying Fund, (ii) do not exceed 5% of the value of the Fund’s total assets and (iii) when added to all other Underlying Fund securities held by the Fund, do not exceed 10% of the value of the Fund’s total assets. The Fund may exceed these limits when permitted by SEC order or other applicable law or regulatory guidance, such as is the case with many ETFs.

Generally, under Sections 12(d)(1)(F) and 12(d)(1)(G) of the 1940 Act and SEC rules adopted pursuant to the 1940 Act, the Fund may acquire the securities of affiliated and unaffiliated Underlying Funds subject to the following guidelines and restrictions:

- The Fund may own an unlimited amount of the securities of any registered open-end fund or registered unit investment trust that is affiliated with the Fund, so long as any such Underlying Fund has a policy that prohibits it from acquiring any securities of registered open-end funds or registered unit investment trusts in reliance on certain sections of the 1940 Act.
- The Fund and its “affiliated persons” may own up to 3% of the outstanding stock of any fund, subject to the following restrictions:
  - i. the Fund and each Underlying Fund, in the aggregate, may not charge a sales load greater than the limits set forth in Rule 2830(d)(3) of the Conduct Rules of the Financial Industry Regulatory Authority (“FINRA”) applicable to funds of funds;
  - ii. each Underlying Fund is not obligated to redeem more than 1% of its total outstanding securities during any period less than 30 days; and
  - iii. the Fund is obligated either to (i) seek instructions from its shareholders with regard to the voting of all proxies with respect to the Underlying Fund and to vote in accordance with such instructions, or (ii) to vote the shares of the Underlying Fund held by the Fund in the same proportion as the vote of all other shareholders of the Underlying Fund.

Acquired funds typically incur fees that are separate from those fees incurred directly by the Fund. The Fund’s purchase of such investment company securities results in the layering of expenses as Fund shareholders would indirectly bear a proportionate share of the operating expenses of such investment companies, including advisory fees, in addition to paying Fund expenses. In addition, the securities of other investment companies may also be leveraged and will therefore be subject to certain leverage risks. The net asset value and market value of leveraged securities will be more volatile and the yield to shareholders will tend to fluctuate more than the yield generated by unleveraged securities. Investment companies may have investment policies that differ from those of the Fund.

Under certain circumstances an open-end investment company in which the Fund invests may determine to make payment of a redemption by the Fund wholly or in part by a distribution in kind of securities from its portfolio, instead of in cash. As a result, the Fund may hold such securities until the Advisor determines it is appropriate to dispose of them. Such disposition will impose additional costs on the Fund.

Investment decisions by the investment advisors to the registered investment companies in which the Fund invests are made independently of the Fund. At any particular time, one Underlying Fund may be purchasing shares of an issuer

whose shares are being sold by another Underlying Fund. As a result, under these circumstances the Fund indirectly would incur certain transactional costs without accomplishing any investment purpose.

## **EXCHANGE-TRADED FUNDS (“ETFs”)**

The Fund may invest in ETFs. ETFs are pooled investment vehicles that generally seek to track the performance of specific indices. ETFs may be organized as open-end funds or as unit investment trusts (“UITs”). Their shares are listed on stock exchanges and can be traded throughout the day at market-determined prices.

An ETF generally issues index-based investments in aggregations of 50,000 shares known as “Creation Units” in exchange for a “Portfolio Deposit” consisting of (a) a portfolio of securities substantially similar to the component securities (“Index Securities”) of the applicable index (the “Index”), (b) a cash payment equal to a pro rata portion of the dividends accrued on the ETF’s portfolio securities since the last dividend payment by the ETF, net of expenses and liabilities, and (c) a cash payment or credit (“Balancing Amount”) designed to equalize the net asset value of the Index and the net asset value of a Portfolio Deposit.

Shares of ETFs are not individually redeemable, except upon termination of the ETF. To redeem shares of an ETF, an investor must accumulate enough shares of the ETF to reconstitute a Creation Unit. The liquidity of small holdings of ETF shares, therefore, will depend upon the existence of a secondary market for such shares. Upon redemption of a Creation Unit, the portfolio will receive Index Securities and cash identical to the Portfolio Deposit required of an investor wishing to purchase a Creation Unit that day.

The price of ETF shares is based upon (but not necessarily identical to) the value of the securities held by the ETF. Accordingly, the level of risk involved in the purchase or sale of ETF shares is similar to the risk involved in the purchase or sale of traditional common stock, with the exception that the pricing mechanism for ETF shares is based on a basket of stocks. Disruptions in the markets for the securities underlying ETF shares purchased or sold by the Fund could result in losses on such shares. There is no assurance that the requirements of the national securities exchanges necessary to maintain the listing of shares of any ETF will continue to be met.

## **SHORT-TERM INVESTMENTS**

The Fund may invest in any of the following securities and instruments:

Bank Certificates of Deposit, Bankers’ Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers’ acceptances and time deposits in U.S. Dollar or foreign currencies. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers’ acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are “accepted” by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. The commercial banks issuing these short-term instruments which the Fund may acquire must, at the time of purchase, have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government. If the Fund holds instruments of foreign banks or financial institutions, it may be subject to additional investment risks that are different in some respects from those incurred if the Fund invests only in debt obligations of U.S. domestic issuers. See “Foreign Investments” above. Such risks include future political and economic developments, the possible imposition of withholding taxes by the particular country in which the issuer is located, the possible confiscation or nationalization of foreign deposits, the possible establishment of exchange controls, or the adoption of other foreign governmental restrictions which may adversely affect the payment of principal and interest on these securities.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds and the interest income generated from lending operations. General economic conditions and the quality of loan portfolios affect the banking industry.

As a result of federal and state laws and regulations, domestic banks are required to maintain specified levels of reserves, limited in the amount that they can loan to a single borrower, and are subject to regulations designed to promote financial soundness. However, such laws and regulations may not necessarily apply to foreign banks, thereby affecting the risk involved in bank obligations that The Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under its investment strategies and policies stated above and in the Prospectus, the Fund may invest in interest-bearing time deposits or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

The Fund's investment in commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Advisor to be of comparable quality. These rating symbols are described in Appendix A. With respect to the Managed Futures Strategy Fund, the Fund's investment in commercial paper and short-term notes will consist of issues rated at the time of purchase "A-3" or higher by Standard & Poor's Ratings Group ("S&P"), "Prime-3" by Moody's Investors Service, Inc. ("Moody's"), or "F-3" by Fitch Ratings Inc. or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Advisor to be of comparable quality. These rating symbols are described in Appendix A.

Corporate debt obligations are subject to the risk of an issuer's inability to meet principal and interest payments on the obligations, i.e., credit risk. The Advisor or a Sub-Advisor may actively expose the relevant Fund to credit risk. However, there can be no guarantee that the Advisor or the Sub-Advisor will be successful in making the right selections and thus fully mitigate the impact of credit risk changes on the Fund.

## **GOVERNMENT OBLIGATIONS**

The Fund may invest in short-term U.S. government obligations. Such obligations include Treasury bills, certificates of indebtedness, notes and bonds. U.S. government obligations include securities issued or guaranteed as to principal and interest by the U.S. government, its agencies or instrumentalities. Treasury bills, the most frequently issued marketable government securities, have a maturity of up to one year and are issued on a discount basis. U.S. government obligations include securities issued or guaranteed by government-sponsored enterprises.

Payment of principal and interest on U.S. government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. government would provide financial support to its agencies or instrumentalities, including government-sponsored enterprises, where it is not obligated to do so. In addition, U.S. government obligations are subject to fluctuations in market value due to fluctuations in market interest rates. As a general matter, the value of debt instruments, including U.S. government obligations, declines when market interest rates increase and rises when market interest rates decrease. Certain types of U.S. government obligations are subject to fluctuations in yield or value due to their structure or contract terms.

## **BORROWING**

The Fund may engage in limited borrowing activities. Borrowing creates an opportunity for increased return, but, at the same time, creates special risks. Furthermore, if the Fund were to engage in borrowing, an increase in interest rates could reduce the value of the Fund's shares by increasing the Fund's interest expense. Subject to the limitations described under "Investment Limitations" below, the Fund may be permitted to borrow for temporary purposes and/or for investment purposes. Such a practice will result in leveraging of the Fund's assets and may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so. This borrowing may be secured or unsecured. Provisions of the 1940 Act require the Fund to maintain continuous asset coverage (that is, total assets including borrowings, less liabilities exclusive of borrowings) of 300% of the amount borrowed, with an exception for borrowings not in excess of 5% of the Fund's total assets made for temporary administrative purposes. Any borrowings for temporary administrative purposes in excess of 5% of the Fund's total assets will count against this asset coverage requirement. If the 300% asset coverage should decline as a result of market fluctuations or other reasons, the Fund may be required to sell some of its portfolio holdings within three days to reduce the debt and restore the 300% asset coverage, even though it may be disadvantageous from an investment standpoint if the Fund sells securities at that time. Borrowing will tend to exaggerate the effect on net asset value of any increase or decrease in the market value of the Fund's portfolio. Money borrowed will be subject to interest charges which may or may not be recovered by appreciation of the securities purchased, if any. The Fund also may be required to maintain minimum average balances in connection with such borrowings or to pay a commitment or other fee to maintain a line of credit; either of these requirements would increase the cost of borrowing over the stated interest rate.

## **LARGE SHAREHOLDER REDEMPTION RISK**

Certain account holders may from time to time own (beneficially or of record) or control a significant percentage of the Fund's shares. Redemptions by these account holders of their shares in the Fund may impact the Fund's liquidity and net asset value. Such redemptions may also force the Fund to sell securities at a time when it would not otherwise do so, which may increase the Fund's broker costs and impact shareholder taxes.

## **LENDING PORTFOLIO SECURITIES**

Consistent with applicable regulatory requirements and the Fund's investment restrictions, the Fund may lend portfolio securities to securities broker-dealers or financial institutions, provided that such loans are callable at any time by the Fund (subject to notice provisions described below), and are at all times secured by cash or cash equivalents, which are maintained in a segregated account pursuant to applicable regulations and that are at least equal to the market value, determined daily, of the loaned securities. The advantage of such loans is that the Fund continues to receive the income on the loaned securities while at the same time earns interest on the cash amounts deposited as collateral, which will be invested in short-term obligations. The Fund will not lend portfolio securities if such loans are not permitted by the laws or regulations of any state in which its shares are qualified for sale. The Fund's loans of portfolio securities will be collateralized in accordance with applicable regulatory requirements and no loan will cause the value of all loaned securities to exceed 33 1/3% of the value of the Fund's total assets.

A loan may generally be terminated by the borrower on one business day's notice, or by the Fund on five business days' notice. If the borrower fails to deliver the loaned securities within five days after receipt of notice or fails to maintain the requisite amount of collateral, the Fund could use the collateral to replace the securities while holding the borrower liable for any excess of replacement cost over collateral. As with any extensions of credit, there are risks of delay in recovery and in some cases even loss of rights in the collateral should the borrower of the securities fail financially. However, these loans of portfolio securities will only be made to firms deemed by the Fund's management to be creditworthy and when the income that can be earned from such loans justifies the attendant risks. Upon termination of the loan, the borrower is required to return the securities to the Fund. Any gain or loss in the market price during the loan period would inure to the Fund. The risks associated with loans of portfolio securities are substantially similar to those associated with repurchase agreements. Thus, if the counterparty to the loan petitions for bankruptcy or becomes subject to the U.S. Bankruptcy Code, the law regarding the rights of the Fund is unsettled. As a result, under extreme circumstances, there may be a restriction on the Fund's ability to sell the collateral, and the Fund would suffer a loss. When voting or consent rights that accompany loaned securities pass to the borrower, the Fund will follow the policy of calling the loaned securities, to be delivered within one day after notice, to permit the exercise of such rights

if the matters involved would have a material effect on the Fund's investment in such loaned securities. The Fund will pay reasonable finder's, administrative and custodial fees in connection with a loan of its securities.

## **MARKET CONDITIONS**

Events in certain sectors historically have resulted, and may in the future result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. These events have included, but are not limited to: bankruptcies, corporate restructurings, and other events related to the sub-prime mortgage crisis in 2008; governmental efforts to limit short selling and high frequency trading; measures to address U.S. federal and state budget deficits; social, political, and economic instability in Europe; economic stimulus by the Japanese central bank; steep declines in oil prices; dramatic changes in currency exchange rates; and China's economic slowdown. Interconnected global economies and financial markets increase the possibility that conditions in one country or region might adversely impact issuers in a different country or region. Such events may cause significant declines in the values and liquidity of many securities and other instruments. It is impossible to predict whether such conditions will recur. Because such situations may be widespread, it may be difficult to identify both risks and opportunities using past models of the interplay of market forces, or to predict the duration of such events.

## **TEMPORARY INVESTMENTS**

The Fund may take temporary defensive measures that are inconsistent with the Fund's normal fundamental or non-fundamental investment policies and strategies in response to adverse market, economic, political, or other conditions as determined by the Advisor. Such measures could include, but are not limited to, investments in (1) highly liquid short-term fixed income securities issued by or on behalf of municipal or corporate issuers, obligations of the U.S. government and its agencies, commercial paper, and bank certificates of deposit; (2) repurchase agreements involving any such securities; and (3) other money market instruments. The Fund also may invest in shares of money market mutual funds to the extent permitted under applicable law. Money market mutual funds are investment companies, and the investments in those companies by the Fund are in some cases subject to certain fundamental investment restrictions. As a shareholder in a mutual fund, the Fund will bear its ratable share of its expenses, including management fees, and will remain subject to payment of the fees to the Advisor, with respect to assets so invested. The Fund may not achieve its investment objectives during temporary defensive periods.

## **TECHNOLOGY RISK**

The Advisor uses various technologies in managing the Fund, consistent with its investment objective and strategy described in this prospectus. For example, proprietary and third-party data and systems are utilized to support decision making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

## **DEVELOPMENTS IN THE CHINA REGION**

After nearly 30 years of unprecedented growth, the People's Republic of China now faces a slowing economy. The real estate market, which many observers believed to be inflated, has begun to decline. Local governments, which had borrowed heavily to bolster growth, face high debt burdens and limited revenue sources. As a result, demand for Chinese exports by the United States and countries in Europe, and demands for Chinese imports from such countries, may weaken due to the effects of more limited economic growth. Additionally, Chinese actions to lay claim to disputed islands have caused relations with China's regional trading partners to suffer, and could cause further disruption to regional and international trade. In the long run, China's ability to develop and sustain a credible legal, regulatory, monetary, and socioeconomic system could influence the course of outside investment.

## **EUROPE—RECENT EVENTS**

A number of countries in Europe have experienced severe economic and financial difficulties. Many non-governmental issuers, and even certain governments, have defaulted on, or been forced to restructure, their debts; many other issuers have faced difficulties obtaining credit or refinancing existing obligations; financial institutions have in many cases required government or central bank support, have needed to raise capital, and/or have been impaired in their ability

to extend credit; and financial markets in Europe and elsewhere have experienced extreme volatility and declines in asset values and liquidity. These difficulties may continue, worsen or spread within and outside Europe. Responses to the financial problems by European governments, central banks and others, including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Further defaults or restructurings by governments and others of their debt could have additional adverse effects on economies, financial markets and asset valuations around the world.

The European Union (the “EU”) currently faces major issues involving its membership, structure, procedures and policies, including the successful political, economic and social integration of new member states, the EU’s resettlement and distribution of refugees, and resolution of the EU’s problematic fiscal and democratic accountability. In addition, one or more countries may abandon the Euro, the common currency of the EU, and/or withdraw from the EU. The impact of these actions, especially if they occur in a disorderly fashion, is not clear but could be significant and far-reaching.

In June 2016, the United Kingdom (the “UK”) voted in a referendum to leave the EU. On March 29, 2017, UK Prime Minister Theresa May delivered a letter invoking Article 50 of the Lisbon Treaty and notifying the European Council of the UK’s decision to withdraw from the EU. The letter triggered the two-year withdrawal negotiation process, and thus it is anticipated that the UK will leave the EU on or before March 29, 2019. It is unclear how withdrawal negotiations will be conducted and what the potential consequences may be. In addition, it is possible that measures could be taken to revote on the issue of Brexit, or that portions of the UK could seek to separate and remain a part of the EU. As a result of the political divisions within the UK and between the UK and the EU that the referendum vote has highlighted and the uncertain consequences of a Brexit, the UK and European economies and the broader global economy could be significantly impacted, which may result in increased volatility and illiquidity, and potentially lower economic growth on markets in the UK, Europe and globally that could potentially have an adverse effect on the value of the Fund’s investments.

Whether or not the Fund invests in securities of issuers located in Europe or with significant exposure to European issuers or countries, these events could negatively affect the value and liquidity of the Fund’s investments due to the interconnected nature of the global economy and capital markets. The Fund may also be susceptible to these events to the extent that the Fund invests in municipal obligations with credit support by non-U.S. financial institutions.

## **CYBER SECURITY RISK**

Investment companies, such as the Fund, and their service providers may be subject to operational and information security risks resulting from cyber attacks. Cyber attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber attacks affecting the Fund or the Advisor, custodian, transfer agent or intermediaries or other third-party service providers may adversely impact the Fund. For instance, cyber attacks may interfere with the processing of shareholder transactions, impact the Fund’s ability to calculate its net asset value, cause the release of private shareholder information or confidential company information, impede trading, subject the Fund to regulatory fines or financial losses, and cause reputational damage. The Fund may also incur additional costs for cyber security risk management purposes. While the Fund and its service providers have established business continuity plans and risk management systems designed to prevent or reduce the impact of cyber security attacks, such plans and systems have inherent limitations due in part to the ever-changing nature of technology and cyber security attack tactics, and there is a possibility that certain risks have not been adequately identified or prepared for. Furthermore, the Fund cannot control any cyber security plans or systems implemented by its service providers.

Similar types of cyber security risks are also present for issuers of securities in which the Fund invests, which could result in material adverse consequences for such issuers, and may cause the Fund’s investment in such portfolio companies to lose value.

## **INVESTMENT RESTRICTIONS**

The Fund has adopted the following restrictions as fundamental policies, which may not be changed without the favorable vote of the holders of a majority of the outstanding voting securities of the Fund, as defined in the 1940 Act.

Under the 1940 Act, the “vote of the holders of a majority of the outstanding voting securities” of the Fund means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund. The Fund’s investment objective is a non-fundamental policy and may be changed without shareholder approval.

The Fund may not:

1. Issue senior securities, borrow money or pledge its assets, except that (i) the Fund may borrow from banks in amounts not exceeding one-third of its net assets (including the amount borrowed); and (ii) this restriction shall not prohibit the Fund from engaging in options transactions or short sales or investing in financial futures, swaps, when-issued or delayed delivery securities, or reverse repurchase agreements;
2. Act as underwriter, except to the extent the Fund may be deemed to be an underwriter in connection with the sale of securities in its investment portfolio;
3. With respect to 75% of the Fund’s total assets, purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. government or any of its agencies or instrumentalities) if, as a result, (a) more than 5% of the Fund’s total assets would be invested in the securities of that issuer, or (b) the Fund would hold more than 10% of the outstanding voting securities of that issuer;
4. Invest 25% or more of its total assets, calculated at the time of purchase, in any one industry (other than securities issued by the U.S. government, its agencies or instrumentalities);
5. Purchase or sell real estate or interests in real estate or real estate limited partnerships (although the Fund may purchase and sell securities which are secured by real estate and securities of companies which invest or deal in real estate, such as real estate investment trusts (REITs));
6. Make loans of money, except (a) for purchases of debt securities consistent with the investment policies of the Fund, (b) by engaging in repurchase agreements or, (c) through the loan of portfolio securities in an amount up to 33 1/3% of the Fund’s net assets; or
7. Purchase or sell physical commodities, unless acquired as a result of ownership of securities or other instruments. This limitation shall not prevent the Fund from purchasing, selling or entering into future contracts, or acquiring securities or other instruments and options thereon backed by, or related to, physical commodities.

The Fund observes the following restriction as a matter of operating but not fundamental policy, pursuant to positions taken by federal regulatory authorities:

The Fund may not invest, in the aggregate, more than 15% of its net assets in securities with legal or contractual restrictions on resale, securities that are not readily marketable and repurchase agreements with more than seven days to maturity.

Except with respect to borrowing, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation.

## **MANAGEMENT OF THE FUND**

### **Trustees and Officers**

The overall management of the business and affairs of the Trust is vested with its Board of Trustees. The Board approves all significant agreements between the Trust and persons or companies furnishing services to it, including the agreements with the Advisor, Sub-Advisor, co-administrators, distributor, custodian and transfer agent. The day-to-day operations of the Trust are delegated to its officers, except that the Advisor and Sub-Advisor are responsible for making

day-to-day investment decisions in accordance with the Fund’s investment objective, strategies, and policies, all of which are subject to general supervision by the Board.

The Trustees and officers of the Trust, their years of birth and positions with the Trust, term of office with the Trust and length of time served, their business addresses and principal occupations during the past five years and other directorships held during the past five years are listed in the table below. Unless noted otherwise, each person has held the position listed for a minimum of five years. Charles H. Miller, Ashley Toomey Rabun, William H. Young and John P. Zader are all of the Trustees who are not “interested persons” of the Trust, as that term is defined in the 1940 Act (collectively, the “Independent Trustees”).

<b>Name, Address, Year of Birth and Position(s) held with Trust</b>	<b>Term of Office and Length of Time Served</b>	<b>Principal Occupation During the Past Five Years and Other Affiliations</b>	<b>Number of Portfolios in the Fund Complex Overseen by Trustee<sup>d</sup></b>	<b>Other Directorships Held by Trustee During the Past Five Years</b>
<b>“Independent” Trustees:</b>				
Charles H. Miller <sup>a</sup> (born 1947) Trustee	Since November 2007	Retired (2013 – present). Executive Vice President, Client Management and Development, Access Data, a Broadridge company, a provider of technology and services to asset management firms (1997 – 2012).	7	None.
Ashley Toomey Rabun <sup>a</sup> (born 1952) Trustee and Chairperson of the Board	Since November 2007	Retired (2016 – present). President and Founder, InvestorReach, Inc. a financial services consulting firm (1996-2015).	7	Select Sector SPDR Trust, a registered investment company (includes 11 portfolios)
William H. Young <sup>a</sup> (born 1950) Trustee	Since November 2007	Retired (2014 – present). Independent financial services consultant (1996-2014). Interim CEO, Unified Fund Services Inc. (now Huntington Fund Services), a mutual fund service provider (2003-2006). Senior Vice President, Oppenheimer Management Company (1983-1996). Chairman NICSA, an investment management trade association (1993-1996).	7	None.
John P. Zader <sup>a</sup> (born 1961) Trustee	Since November 2007	Retired (June 2014 – present). CEO, UMB Fund Services, Inc., a mutual fund and hedge fund service provider, and the transfer agent, fund accountant, and co-administrator for the Fund. (December 2006-June 2014). President, Investment Managers Series Trust (December 2007 – June 2014).	7	Investment Managers Series Trust II, a registered investment company (includes 12 portfolios).

Address for Mr. Dziura: 309 Woodridge Lane, Media, Pennsylvania 19063.
- c Trustees and officers serve until their successors have been duly elected.
- d The Trust is comprised of numerous series managed by unaffiliated investment advisors. The term “Fund Complex” applies only to the series managed by the same investment advisor. The Fund’s investment advisor also serves as investment advisor to the 361 Managed Futures Strategy Fund, 361 Global Managed Futures Strategy Fund, 361 Domestic Long/Short Equity Fund, 361 Global Long/Short Equity Fund, 361 Macro Opportunity Fund and 361 U.S. Small Cap Equity Fund, which are offered in a separate prospectus. The Fund does not hold itself out as related to any other series within the Trust, for purposes of investment and investor services.
- † Mr. Banhazl is an “interested person” of the Trust by virtue of his position with Mutual Fund Administration, LLC.

**Compensation**

Each Independent Trustee receives from the Trust a quarterly retainer of \$30,000. Each Independent Trustee also receives \$4,000 for each special in-person meeting attended and \$1,000 for each telephonic meeting attended. In addition, Ms. Rabun receives an additional annual retainer of \$25,000 for serving as Chairperson of the Board; and each of Mr. Young, Mr. Miller and Mr. Zader receives an additional annual retainer of \$10,000 for serving as Audit Committee Chair, Valuation Committee Chair and Nominating, Governance and Regulatory Review Committee Chair, respectively. The Trust has no pension or retirement plan. No other entity affiliated with the Trust pays any compensation to the Trustees.

The Trustees may elect to defer payment of their compensation from the Fund(s) pursuant to the Trust’s non-qualified Deferred Compensation Plan for Trustees which permits the Trustees to defer receipt of all or part of their compensation from the Trust. Amounts deferred are deemed invested in shares of one or more of the series of the Trust, as selected by the Trustee from time to time. A Trustee’s deferred compensation account will be paid at such times as elected by the Trustee, subject to certain mandatory payment provisions in the Deferred Compensation Plan.

	<b>Charles H. Miller, Independent Trustee, and Valuation Committee Chair</b>	<b>Ashley Toomey Rabun, Independent Trustee and Chairperson</b>	<b>William H. Young, Independent Trustee and Audit Committee Chair</b>	<b>John P. Zader, Independent Trustee and Nominating Governance and Regulatory Review Committee Chair</b>

1 Estimated annual compensation for the first year.

2 There are currently numerous portfolios comprising the Trust. The term "Fund Complex" applies only to the series managed by the same investment advisor. The Fund's investment advisor also serves as investment advisor to the 361 Managed Futures Strategy Fund, 361 Global Managed Futures Strategy Fund, 361 Domestic Long/Short Equity Fund, 361 Global Long/Short Equity Fund, 361 Macro Opportunity Fund and 361 U.S. Small Cap Equity Fund which are offered in a separate prospectus. The Fund does not hold itself out as related to any other series within the Trust, for purposes of investment and investor services.

Mr. Banhazl is not compensated for his service as Trustee because of his affiliation with the Trust. Officers of the Trust are not compensated by the Fund for their services.

#### **Additional Information Concerning the Board and the Trustees**

The current Trustees were selected in November 2007 (January 2008 for Mr. Banhazl) with a view towards establishing a Board that would have the broad experience needed to oversee a registered investment company comprised of multiple series employing a variety of different investment strategies. As a group, the Board has extensive experience in many different aspects of the financial services and asset management industries.

The Trustees were selected to join the Board based upon the following factors, among others: character and integrity; willingness to serve and willingness and ability to commit the time necessary to perform the duties of a Trustee; as to each Trustee other than Mr. Banhazl and Mr. Zader (at that time), satisfying the criteria for not being classified as an "interested person" of the Trust as defined in the 1940 Act; and, as to Mr. Banhazl his position with Mutual Fund Administration, LLC, one of the Trust's co-administrators. In addition, the Trustees have the following specific experience, qualifications, attributes and/or skills relevant to the operations of the Trust:

- Ms. Rabun has substantial senior executive experience in mutual fund marketing and distribution and serving in senior executive and board positions with mutual funds, including multiple series trusts similar to the Trust.
- Mr. Miller has significant senior executive experience with respect to marketing and distribution of mutual funds, including multiple series trusts similar to the Trust.
- Mr. Young has broad senior executive experience with respect to the operations and management of mutual funds and administrative service providers, including multiple series trusts similar to the Trust.
- Mr. Banhazl has significant experience serving in senior executive and board positions for mutual funds and with respect to the organization and operation of mutual funds and multiple series trusts similar to the Trust.

- Mr. Zader has substantial experience serving in senior executive positions at mutual fund administrative service providers.

In its periodic self-assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board's overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the Fund. The summaries set forth above as to the qualifications, attributes and skills of the Trustees are required by the registration form adopted by the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and do not impose any greater responsibility or liability on any such person or on the Board as a whole than would otherwise be the case.

The Board of Trustees has three standing committees: the Audit Committee, the Nominating, Governance and Regulatory Review Committee (the "Nominating Committee"), and the Valuation Committee.

- The function of the Audit Committee, with respect to each series of the Trust, is to review the scope and results of the series' annual audit and any matters bearing on the audit or the series' financial statements and to assist the Board's oversight of the integrity of the series' pricing and financial reporting. The Audit Committee is comprised of all of the Independent Trustees and is chaired by Mr. Young. It does not include any Interested Trustees. The Audit Committee is expected to meet at least twice a year with respect to each series of the Trust. The Audit Committee is expected to meet at least twice a year with respect to the Fund.

The Audit Committee also serves as the Qualified Legal Compliance Committee ("QLCC") for the Trust for the purpose of compliance with Rules 205.2(k) and 205.3(c) of the Code of Federal Regulations regarding alternative reporting procedures for attorneys retained or employed by an issuer who appear and practice before the SEC on behalf of the issuer.

- The Nominating Committee is responsible for reviewing matters pertaining to composition, committees, and operations of the Board, as well as assisting the Board in overseeing matters related to certain regulatory issues. The Nominating Committee meets from time to time as needed. The Nominating Committee will consider trustee nominees properly recommended by the Trust's shareholders. Shareholders who wish to recommend a nominee should send nominations that include, among other things, biographical data and the qualifications of the proposed nominee to the Trust's Secretary. The Independent Trustees comprise the Nominating Committee, and the Committee is chaired by Mr. Zader. The Nominating Committee meets as needed.
- The function of the Valuation Committee is to recommend to the Board for its approval methodologies for valuing securities held by any series of the Trust for which current and reliable market quotations are not readily available; monitor prices determined by officers of the Trust pursuant to such methodologies; and approve fair valued security prices that are not determined pursuant to an approved methodology. The actions of the Valuation Committee are subsequently reviewed by the Board. The Valuation Committee is comprised of all the Trustees and is chaired by Mr. Miller, but action may be taken by any one of the Trustees. The Valuation Committee meets as needed.

Independent Trustees comprise 80% of the Board and Ashley Toomey Rabun, an Independent Trustee, serves as Chairperson of the Board. The Chairperson serves as a key point person for dealings between the Trust's management and the other Independent Trustees. As noted above, through the committees of the Board the Independent Trustees consider and address important matters involving each series of the Trust, including those presenting conflicts or potential conflicts of interest. The Independent Trustees also regularly meet outside the presence of management and are advised by independent legal counsel. The Board has determined that its organization and leadership structure are appropriate in light of its fiduciary and oversight obligations, the special obligations of the Independent Trustees, and the relationship between the Interested Trustees and the Trust's co-administrators. The Board also believes that its structure facilitates the orderly and efficient flow of information to the Independent Trustees from management.

Consistent with its responsibility for oversight of the Fund in the interests of shareholders, the Board among other things oversees risk management of the Fund's investment programs and business affairs directly and through the Audit

Committee. The Board has emphasized to the Advisor the importance of maintaining vigorous risk management programs and procedures.

The Fund faces a number of risks, such as investment risk, valuation risk, reputational risk, risk of operational failure or lack of business continuity, and legal, compliance and regulatory risk. Risk management seeks to identify and address risks, i.e., events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Fund. Under the overall supervision of the Board, the Advisor, Sub-Advisor and other service providers to the Fund employ a variety of processes, procedures and controls to identify various of those possible events or circumstances, to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Different processes, procedures and controls are employed with respect to different types of risks. Various personnel, including the Trust’s Chief Compliance Officer (the “CCO”), the Advisor’s management, and other service providers (such as the Fund’s independent registered public accounting firm) make periodic reports to the Board or to the Audit Committee with respect to various aspects of risk management. The Board recognizes that not all risks that may affect the Fund can be identified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Fund’s investment objective, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Trustees as to risk management matters are typically summaries of the relevant information. As a result of the foregoing and other factors, the Board’s risk management oversight is subject to substantial limitations.

### **Fund Shares Beneficially Owned by Trustees**

As of December 31, 2017 the Trustees beneficially owned shares of the Fund and other series of the Trust as follows.

<b>Name of Trustee</b>	<b>Dollar Range of Equity Securities in the Fund (None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, Over \$100,000)</b>	<b>Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by Trustee in Family of Investment Companies</b>
Charles H. Miller, Independent Trustee	None	None
Ashley Toomey Rabun, Independent Trustee	None	None
William H. Young, Independent Trustee	None	Over \$100,000
John P. Zader, Independent Trustee	None	None
Eric M. Banhazl, Interested Trustee	None	Over \$100,000

### **Control Persons, Principal Shareholders, and Management Ownership**

As of the date of this SAI, the Fund is under the control of the Advisor, which had voting authority with respect to 100% of the outstanding shares in the Fund on such date. However, once the Fund commences investment operations and its shares are sold to the public, this control will be diluted. The Trustees and officers of the Trust as a group did not own more than 1% of the outstanding shares of the Fund. Furthermore, neither the Independent Trustees, nor members of their immediate families, own securities beneficially or of record in the Advisor, the Sub-Advisor, the Fund’s distributor, IMST Distributors, LLC (the “Distributor”), or any of their respective affiliates.

### **The Advisor**

361 Capital, LLC acts as investment advisor to the Fund pursuant to an Investment Advisory Agreement (the “Advisory Agreement”). The Advisor is controlled by its Principal, Thomas I. Florence. Subject to such policies as the Board of Trustees may determine, the Advisor is ultimately responsible for investment decisions for the Fund. Pursuant to the terms of the Advisory Agreement, the Advisor provides the Fund with such investment advice and supervision, as it deems necessary for the proper supervision of the Fund’s investments. The Advisor also continuously monitors and maintains the Fund’s investment criteria and determines from time to time what securities may be purchased by the Fund.

Pursuant to the terms of the Advisory Agreement, the Advisor provides the Fund with investment advice, makes recommendations with respect to the selection and continued employment of the Sub-Advisor to manage the Fund's assets, performs diligence on and monitors the Sub-Advisor, investment performance and adherence to compliance procedures, and oversees the investments made by the Sub-Advisor. The Advisor also continuously monitors the Sub-Advisor's compliance with the Fund's investment objective, policies and restrictions. Subject to such policies as the Board of Trustees may determine, the Advisor is ultimately responsible for investment decisions for the Fund.

The Advisory Agreement will remain in effect with respect to the Fund for an initial two-year period. After the initial two-year period, the Advisory Agreement will continue in effect with respect to the Fund from year to year only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities and by a majority of the Trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund, upon giving the Advisor 60 days' notice when authorized either by a majority vote of the Fund's shareholders or by a vote of a majority of the Board, or by the Advisor on 60 days' written notice, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Advisory Agreement provides that the Advisor shall not be liable for any error of judgment or for any loss suffered by the Trust in connection with the Advisory Agreement, except for a loss resulting from a breach of fiduciary duty, or for a loss resulting from willful misfeasance, bad faith or gross negligence in the performance of its duties, or from reckless disregard by the Advisor of its duties under the Advisory Agreement.

In consideration of the services to be provided by the Advisor pursuant to the Advisory Agreement, the Advisor is entitled to receive from the Fund an investment advisory fee computed daily and paid monthly based on an annual rate equal to a percentage of the Fund's average daily net assets specified in the Prospectus.

### **Sub-Advisor**

The Advisor has entered into a sub-advisory agreement with Wells Capital Management, Inc. with respect to the Fund (the "Sub-Advisory Agreement"). WellsCap, formerly Analytic Investors, LLC, is a registered investment adviser located at 525 Market Street, San Francisco, California 94105. WellsCap, an affiliate of Funds Management and an indirect wholly owned subsidiary of Wells Fargo & Company, is a multi-boutique asset management firm committed to delivering superior investment services to institutional clients, including mutual funds. WellsCap is a part of Wells Fargo Asset Management, the trade name used by the asset management businesses of Wells Fargo & Company. On November 1, 2018, Analytic Investors, LLC consolidated into WellsCap.

The Advisor compensates WellsCap out of the investment advisory fees the Advisor receives from the Fund. WellsCap makes investment decisions for the assets it has been allocated to manage, subject to the overall supervision of the Advisor.

The Sub-Advisory Agreement will remain in effect for an initial two-year period. After the initial two-year period, the Sub-Advisory Agreement will continue in effect from year to year only as long as such continuance is specifically approved at least annually by (i) the Board of Trustees of the Trust or by the vote of a majority of the outstanding voting shares of the respective Fund, and (ii) by the vote of a majority of the Trustees of the Trust who are not parties to the Sub-Advisory Agreement or interested persons of the Advisor, the Sub-Advisor or the Trust. The Sub-Advisory Agreement may be terminated at any time without the payment of any penalty by the Board of Trustees of the Trust or by the vote of a majority of the outstanding voting shares of the respective Fund, or by the Sub-Advisor or the Advisor, upon 60 days' written notice to the other party. Additionally, the Sub-Advisory Agreement automatically terminates in the event of its assignment. The Sub-Advisory Agreement provide that the Sub-Advisor shall not be liable for any error of judgment or for any loss suffered by the Trust in connection with the Sub-Advisory Agreement, except for a loss resulting from a breach of fiduciary duty, or for a loss resulting from willful misfeasance, bad faith or gross negligence in the performance of its duties, or from reckless disregard by the Sub-Advisor of its duties under the respective Sub-Advisory Agreement.

## Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's independent trustees; insurance (including trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; dues and expenses incurred in connection with membership in investment company organizations; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; expenses relating to investor and public relations; expenses of registering or qualifying securities of the Fund for public sale; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund; expenses of preparation and distribution of reports, notices and dividends to shareholders; expenses of the dividend reinvestment plan; compensation and expenses of trustees; any litigation expenses; and costs of shareholders' and other meetings.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding, as applicable, any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, extraordinary expenses such as litigation expenses, Rule 12b-1 fees, and shareholder service fees) do not exceed 1.20% of the Fund's average daily net assets. This agreement is effective until February 29, 2020, and it may be terminated, before that date only by the Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full fiscal years after the date of reduction or payment if the Advisor so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time of the such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement. However, the reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor and will not include any amounts previously reimbursed to the Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or Fund expenses.

In consideration of the services to be provided by the Sub-Advisor to the Fund pursuant to the Sub-Advisory Agreement, the Sub-Advisor is entitled to receive from the Fund an investment advisory fee computed daily and paid monthly based on an annual rate equal to a percentage of the Fund's average daily net assets specified in the Prospectus.

## Portfolio Managers

**Other Accounts Managed by the Portfolio Managers.** As of October 1, 2018, information on other accounts managed by the Fund's portfolio managers is as follows:

Portfolio Manager	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets (in Million)	Number of Accounts	Total Assets (in Million)	Number of Accounts	Total Assets (in Million)
Harindra de Silva	16	\$4,000	11	\$866	38	\$18,900
Dennis Bein	13	\$3,000	11	\$866	37	\$18,200
David Krider	5	\$1,700	7	\$526	16	\$6,800

Number of Accounts with Advisory Fee Based on Performance						
	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
Portfolio Manager	Number of Accounts	Total Assets (in Million)	Number of Accounts	Total Assets (in Million)	Number of Accounts	Total Assets (in Million)
Harindra de Silva	0	\$0	1	\$164	0	\$0
Dennis Bein	0	\$0	1	\$164	0	\$0
David Krider	0	\$0	1	\$164	0	\$0

### **Material Conflicts of Interest.**

#### **Advisor**

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one fund or other account. It is possible that conflicts of interest may arise in connection with the portfolio managers' management of the Fund's investments on the one hand and the investments of other accounts or vehicles for which the portfolio managers are responsible on the other. For example, a portfolio manager may have conflicts of interest in allocating management time, resources and investment opportunities among the Fund and the other accounts or vehicles he advises. In addition, due to differences in the investment strategies or restrictions among the Fund and the other accounts, a portfolio manager may take action with respect to another account that differs from the action taken with respect to the Fund. In some cases, another account managed by a portfolio manager may provide more revenue to the Advisor. While this may appear to create additional conflicts of interest for the portfolio manager in the allocation of management time, resources and investment opportunities, the Advisor strives to ensure that portfolio managers endeavor to exercise their discretion in a manner that is equitable to all interested persons. In this regard, in the absence of specific account-related impediments, it is the policy of the Advisor to allocate investment ideas pro rata to all accounts with the same primary investment objective.

The goal of the Advisor is to provide high quality investment services to all of its clients, while meeting its fiduciary obligation to treat all clients fairly. The Advisor has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures that it believes address the conflicts associated with managing multiple accounts for multiple clients.

#### **Sub-Advisor**

**WellsCap.** WellsCap's portfolio managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, WellsCap has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

WellsCap and its officers, employees and beneficial owners shall be free from time to time to acquire, possess, manage, and dispose of securities or other investment assets for their own accounts, for the accounts of their families, for the account of any entity in which they have a beneficial interest or for the accounts of others for whom they may provide investment advisory, brokerage or other services (collectively, "Managed Accounts"), in transactions which may or may not correspond with transactions effected or positions held in the Fund. It is understood that when WellsCap determines that it would be appropriate for the Fund and one or more Managed Accounts to participate in an investment opportunity, WellsCap will seek to execute orders for the Fund and for such Managed Accounts on a basis which it considers equitable, but that equality of treatment of the Fund and other Managed Accounts is not assured. In such situations, WellsCap may (but is not be required to) place orders for the Fund and each other Managed Account simultaneously and if all such orders are not filled at the same price, WellsCap may cause the Fund and each Managed Account to pay or receive the average of the prices at which the orders were filled. If all such orders cannot be fully executed under prevailing market conditions, WellsCap may allocate the securities traded among the Fund and other

Managed Accounts in a manner which it considers equitable, taking into account the size of the order placed for the Fund and each other Managed Account as well as any other factors which it deems relevant.

Certain of the Managed Accounts that WellsCap advises may sell securities short, including securities with respect to which other Managed Accounts hold long positions. The portfolio managers and traders for these Managed Accounts are not separated from the rest of WellsCaps' investment personnel and therefore have access to full information about WellsCaps' investment research and the investment decisions and strategies being employed for the Managed Accounts. These Managed Accounts pay WellsCap management fees at rates comparable to and in some cases lower than those paid by the fund and other Managed Accounts. WellsCap also receives a significant share of any profits earned by certain of the Managed Accounts as incentive compensation. As a result, WellsCap may have a conflict between its own interests and the interests of other Sub-Advisor investment advisory clients in managing the portfolios of certain of these Managed Accounts.

### **Compensation of Portfolio Manager**

WellsCap. WellsCap's compensation structure for portfolio managers includes a competitive fixed based salary plus variable incentives, payable annually and over a longer-term period. WellsCap participates in third party investment management compensation surveys for market-based compensation information to help support individual pay decisions. In addition to surveys, WellsCap also considers prior professional experience, tenure, seniority and a portfolio manager's team size, scope and assets under management when determining his/her fixed base salary. In addition, portfolio managers, who meet the eligibility requirements, may participate in WellsCap's 401(k) plan that features a limited matching contribution. Eligibility for and participation in this plan is the same for all employees.

WellsCap's investment incentive program plays an important role in aligning the interests of our portfolio managers, investment team members, clients and shareholders. Incentive awards for portfolio managers are determined based on a review of relative investment and business/team performance. Investment performance is generally evaluated for 1-, 3-, and 5-year performance results, with a predominant weighting on the 3- and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. In the case of the Fund, the benchmarks against which the performance of the Fund's portfolio may be compared for these purposes include the 3-Month LIBOR Index and the MSCI World (Net) Index. Once determined, incentives are awarded to portfolio managers annually, with a portion awarded as annual cash and a portion awarded as long-term incentive. The long-term portion of incentives generally carry a pro-rated vesting schedule over a three-year period. For many of WellsCap's portfolio managers, WellsCap further requires a portion of their annual long-term award be allocated directly into each strategy they manage through a deferred compensation vehicle. In addition, the investment team members who are eligible for long term awards also have the opportunity to invest up to 100% of their awards into investment strategies they support (through a deferred compensation vehicle).

**Ownership of the Fund by the Portfolio Managers.** As of the date of this SAI, the portfolio managers did not own any shares of the Fund.

### **Service Providers**

Pursuant to a Co-Administration Agreement (the "Co-Administration Agreement"), UMB Fund Services, Inc. ("UMBFS"), 235 West Galena Street, Milwaukee, Wisconsin 53212, and Mutual Fund Administration, LLC ("MFAC"), 2220 E. Route 66, Suite 226, Glendora, California 91740 (collectively the "Co-Administrators"), act as co-administrators for the Fund. The Co-Administrators provide certain administrative services to the Fund, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund's independent contractors and agents; preparing for signature by an officer of the Trust of all documents required to be filed for compliance with applicable laws and regulations including those of the securities laws of various states; arranging for the computation of performance data, including net asset value and yield; arranging for the maintenance of books and records of the Fund; and providing, at their own expense, office facilities, equipment and personnel necessary to carry out their duties. In this capacity, the Co-Administrators do not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. The Co-Administration Agreement provides that neither Co-Administrator shall be liable for any error of judgment or mistake of law or for any loss suffered by the Trust or its series, except for losses resulting

from a Co-Administrator's willful misfeasance, bad faith or negligence in the performance of its duties or from reckless disregard by it of its obligations and duties under the Agreement.

Pursuant to the Co-Administration Agreement, the Fund pays the Co-Administrators a fee for administration services. The fee is payable monthly based on the Fund's average daily net assets.

UMBFS also acts as the Trust's fund accountant, transfer agent and dividend disbursing agent pursuant to separate agreements.

UMB Bank, n.a. (the "Custodian"), an affiliate of UMBFS, is the custodian of the assets of the Fund pursuant to a custody agreement between the Custodian and the Trust, whereby the Custodian provides services for fees on a transactional basis plus out-of-pocket expenses. The Custodian's address is 928 Grand Boulevard, Kansas City, Missouri 64106. The Custodian does not participate in decisions pertaining to the purchase and sale of securities by the Fund.

Tait, Weller & Baker LLP ("Tait Weller"), Two Liberty Place, 50 S 16<sup>th</sup> Street, Suite 2900, Philadelphia, Pennsylvania 19102-2529, is the independent registered public accounting firm for the Fund whose services include auditing the Fund's financial statements and the performance of related tax services.

Morgan, Lewis & Bockius LLP ("Morgan Lewis"), 600 Anton Boulevard, Suite 1800, Costa Mesa, California 92626, serves as legal counsel to the Trust.

Paul Hastings LLP ("Paul Hastings"), 101 California Street, 48<sup>th</sup> Floor, San Francisco, California 94111, serves as legal counsel to the Independent Trustees.

### **Distributor and the Distribution Agreement**

IMST Distributors, LLC (the "Distributor") is the distributor (also known as the principal underwriter) of the shares of the Fund and is located at Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor is a registered broker-dealer and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Distributor is not affiliated with the Trust, the Advisor, the Sub-Advisor or any other service provider for the Fund.

Under a Distribution Agreement with the Trust dated January 1, 2013 (the "Distribution Agreement"), the Distributor acts as the agent of the Trust in connection with the continuous offering of shares of the Fund. The Distributor continually distributes shares of the Fund on a best efforts basis. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in determining the investment policies or which securities are to be purchased or sold by the Trust.

The Distributor may enter into agreements with selected broker-dealers, banks or other financial intermediaries for distribution of shares of the Fund. With respect to certain financial intermediaries and related fund "supermarket" platform arrangements, the Fund and/or the Advisor, rather than the Distributor, typically enter into such agreements. These financial intermediaries may charge a fee for their services and may receive shareholder service or other fees from parties other than the Distributor. These financial intermediaries may otherwise act as processing agents and are responsible for promptly transmitting purchase, redemption and other requests to the Fund.

Investors who purchase shares through financial intermediaries will be subject to the procedures of those intermediaries through which they purchase shares, which may include charges, investment minimums, cutoff times and other restrictions in addition to, or different from, those listed herein. Information concerning any charges or services will be provided to customers by the financial intermediary through which they purchase shares. Investors purchasing shares of the Fund through financial intermediaries should acquaint themselves with their financial intermediary's procedures and should read the Prospectus in conjunction with any materials and information provided by their financial intermediary. The financial intermediary, and not its customers, will be the shareholder of record, although customers may have the right to vote shares depending upon their arrangement with the financial intermediary. The Distributor does not receive compensation from the Fund for its distribution services except the distribution/service fees with respect to the shares of those classes for which a Rule 12b-1 distribution plan is effective. The Advisor pays the Distributor a fee for certain distribution-related services.

The Distribution Agreement will continue in effect only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities in accordance with the 1940 Act. The Distribution Agreement is terminable without penalty by the Trust on behalf of the Fund on no less than 60 days' written notice when authorized either by a vote of a majority of the outstanding voting securities of the Fund or by vote of a majority of the members of the Board who are not "interested persons" (as defined in the 1940 Act) of the Trust and have no direct or indirect financial interest in the operation of the Distribution Agreement, or by the Distributor, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Distribution Agreement provides that the Distributor shall not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the performance of the Distributor's obligations and duties under the Distribution Agreement, except a loss resulting from the Distributor's willful misfeasance, bad faith or gross negligence in the performance of such duties and obligations, or by reason of its reckless disregard thereof.

Pursuant to the Distribution Agreement, amounts received by the Distributor are not held for profit by the Distributor, but instead are used to pay for and/or reimburse the Advisor for distribution related expenditures.

### **Rule 12b-1 Plan**

The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act (the "12b-1 Plan") that provides for Fund assets to be used for the payment for distribution services for Investor Class shares. The 12b-1 Plan provides alternative methods for paying sales charges and may help the Fund grow or maintain asset levels to provide operational efficiencies and economies of scale. The 12b-1 Plan also provides for the payment of service fees in connection with the provision of post-sales shareholder liaison services to holders of Investor Class shares, as defined in FINRA regulations, including personal services such as responding to customer inquiries, and services related to the maintenance of shareholder accounts. Because 12b-1 fees are paid out of Fund assets attributable to Investor Class shares on an ongoing basis, they will, over time, increase the cost of an investment and may cost more than other types of sales charges.

The 12b-1 Plan provides that the distribution fees paid by Investor Class shares of the Fund may be used to pay for any expenses primarily intended to result in the sale of shares of such Class, including, but not limited to: (a) costs of payments, including incentive compensation, made to agents for and consultants to the Distributor or the Trust, including pension administration firms that provide distribution services and broker-dealers that engage in the distribution of the shares of such Class of the Fund; (b) payments made to, and expenses of, persons who provide support services in connection with the distribution of shares of such Class of the Fund; (c) payments made pursuant to any dealer agreements between the Distributor and certain broker-dealers, financial institutions and other service providers with respect to such Class of the Fund; (d) costs relating to the formulation and implementation of marketing and promotional activities; (e) costs of printing and distributing prospectuses, statements of additional information and reports of the Fund to prospective shareholders of such Class of the Fund; (f) costs involved in preparing, printing and distributing sales literature pertaining to such Class of the Fund; (g) costs involved in obtaining such information, analyses and reports with respect to marketing and promotional activities that the Trust may deem advisable with respect to such Class of the Fund; and (h) reimbursement to the Advisor for expenses advanced on behalf of the Fund or Class with respect to such activities. The 12b-1 Plan is a compensation plan, which means that the Distributor is compensated regardless of its expenses, as opposed to a reimbursement plan which reimburses only for expenses incurred. The Distributor does not retain any 12b-1 fees for profit. All 12b-1 fees are held in a retention account by the Distributor to pay for and/or reimburse the Advisor for distribution related expenditures.

The 12b-1 Plan may not be amended to materially increase the amount to be paid by the Fund's Investor Class shares for distribution services without the vote of a majority of the outstanding voting securities of such shares. The 12b-1 Plan shall continue in effect indefinitely with respect to a Class, provided that such continuance is approved at least annually by a vote of a majority of the Trustees, including the Independent Trustees, cast in person at a meeting called for such purpose or by vote of at least a majority of the outstanding voting securities of such Class. The 12b-1 Plan may be terminated with respect to a Class at any time without penalty by vote of a majority of the Independent Trustees or by vote of the majority of the outstanding voting securities of such Class.

If the 12b-1 Plan is terminated for the Fund's Investor Class shares in accordance with its terms, the obligation of the Fund to make payments pursuant to the 12b-1 Plan will cease and the Fund will not be required to make any payments

past the termination date. Thus, there is no legal obligation for the Fund to pay any expenses incurred by the Distributor other than for fees already payable under the 12b-1 Plan, if the 12b-1 Plan is terminated in accordance with its terms for any reason.

### **Shareholder Service Plan**

The Board has adopted, on behalf of the Fund, a Shareholder Service Plan (the “Service Plan”) under which the Advisor will provide, or arrange for others (such as banks, trust companies, broker-dealers and other financial intermediaries (each, a “Service Organization”)) to provide, certain specified non-distribution shareholder servicing functions for Fund shares owned by its respective customers, including but not limited to (a) establishing and maintaining accounts and records relating to customers who invest in the Fund; (b) aggregating and processing orders involving Fund shares; (c) processing dividend and other distribution payments from the Fund on behalf of customers; (d) preparing tax reports or forms on behalf of customers; (e) forwarding communications from the Fund; (f) providing sub-accounting with respect to Fund shares; (g) providing customers with a service that invests the assets of their accounts in Fund shares pursuant to specific or pre-authorized instructions; and (h) providing such other similar services as the Advisor may reasonably request to the extent it or a Service Organization is permitted to do so under applicable statutes, rules or regulations. The Fund will pay the Advisor or Service Organizations, as applicable, at an annual rate of up to 0.15% of the Fund’s Investor Class and Class I shares average daily net assets, payable monthly.

### **Marketing and Support Payments**

The Advisor, out of its own resources and without additional cost to the Fund or its shareholders, may provide cash payments or other compensation to certain financial intermediaries who sell shares of the Fund. These payments are in addition to other fees described in the Prospectus and this SAI, and are generally provided for shareholder services or marketing support. Payments for marketing support are typically for inclusion of the Fund on sales lists, including electronic sales platforms. Investors may wish to take these payments into account when considering and evaluating recommendations to purchase shares of the Fund.

## **PORTFOLIO TRANSACTIONS AND BROKERAGE**

Pursuant to the Advisory Agreement and Sub-Advisory Agreement, the Advisor and Sub-Advisor determine which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund’s portfolio transactions. The purchases and sales of securities in the over-the-counter market will generally be executed by using a broker for the transaction.

Purchases of portfolio securities for the Fund also may be made directly from issuers or from underwriters. Where possible, purchase and sale transactions will be effected through dealers (including banks) that specialize in the types of securities which the Fund will be holding unless better executions are available elsewhere. Dealers and underwriters usually act as principals for their own accounts. Purchases from underwriters will include a concession paid by the issuer to the underwriter and purchases from dealers will include the spread between the bid and the asked price. If the execution and price offered by more than one dealer or underwriter are comparable, the order may be allocated to a dealer or underwriter that has provided research or other services as discussed below.

In placing portfolio transactions, the Advisor and Sub-Advisor will use their reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the broker-dealer involved, the risk in positioning the block of securities, and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers which furnish or supply research and statistical information to the Advisor and Sub-Advisor that they may lawfully and appropriately use in their investment advisory capacities, as well as provide other services in addition to execution services. The Advisor and the Sub-Advisor consider such information, which is in addition to and not in lieu of the services required to be performed by them under the Advisory Agreement and Sub-Advisory Agreements with the Fund, to be useful in varying degrees, but of indeterminable value.

While it is the Fund's general policy to seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services as defined in Section 28(e) of the Securities Exchange Act of 1934, as amended, to the Fund or to the Advisor or Sub-Advisor, even if the specific services are not directly useful to the Fund and may be useful to the Advisor or Sub-Advisor in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Advisor and Sub-Advisor to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Advisor's or Sub-Advisor's overall responsibilities to the Fund.

Investment decisions for the Fund are made independently from those of other client accounts that may be managed or advised by the Advisor or Sub-Advisor. Nevertheless, it is possible that at times, identical securities will be acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client accounts in the same issuer may vary and the holding period may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a position in such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time as the Advisor's or a Sub-Advisor's other client accounts.

The Fund does not effect securities transactions through brokers in accordance with any formula, nor do they effect securities transactions through brokers for selling shares of the Fund. However, broker-dealers who execute brokerage transactions may effect purchase of shares of the Fund for their customers. The brokers may also supply the Fund with research, statistical and other services.

### **Holdings of Securities of the Fund's Regular Brokers or Dealers**

From time to time, the Fund may acquire and hold securities issued by its "regular brokers or dealers" or the parents of those brokers or dealers. "Regular brokers or dealers" (as such term is defined in the 1940 Act) of the Fund are the ten brokers or dealers that, during the most recent fiscal year, (i) received the greatest dollar amounts of brokerage commissions from the Fund's portfolio transactions, (ii) engaged as principal in the largest dollar amounts of the portfolio transactions of the Fund, or (iii) sold the largest dollar amounts of the Fund's shares. Any securities of any "regular brokers and dealers" held by the Fund during a fiscal year will be disclosed by the Fund after the end of such fiscal year.

### **PORTFOLIO TURNOVER**

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Advisor, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to higher transaction costs and may result in a greater number of taxable transactions. To the extent net short-term capital gains are realized, any distributions resulting from such gains will generally be taxed at ordinary income tax rates for federal income tax purposes. The Fund is newly-created and, as a result, does not yet have a portfolio turnover rate.

### **PROXY VOTING POLICY**

The Board has adopted Proxy Voting Policies and Procedures ("Trust Policies") on behalf of the Trust, which delegates the responsibility for voting the Fund's proxies to the Advisor and Sub-Advisor, subject to the Board's continuing oversight. The Trust Policies require that the Advisor and Sub-Advisor vote proxies received in a manner consistent with the best interests of the Fund. The Trust Policies also require the Advisor and Sub-Advisor to present to the Board, at least annually, the Advisor's and Sub-Advisor's Proxy Voting Policies and Procedures ("Proxy Policies") and a record

of each proxy voted by the Advisor or Sub-Advisor on behalf of the Fund, including a report on the resolution of all proxies identified by the Advisor as involving a conflict of interest. See Appendix B for the Advisor's, Sub-Advisor, and the Trust's Policies. The Trust Policies and the Advisor Policies are intended to serve as a guideline and to further the economic value of each security held by the Fund. The Trust's Chief Compliance Officer ("CCO") will review the Trust Policies and the Advisor Policies annually. Each proxy will be considered individually, taking into account the relevant circumstances at the time of each vote.

If a proxy proposal raises a material conflict between the Advisor's or a Sub-Advisor's interests and the Fund's interests, the Advisor or Sub-Advisor will resolve the conflict by following the Advisor's or Sub-Advisor's policy guidelines or the recommendation of an independent third party.

The Fund is required to annually file Form N-PX, which lists the Fund's complete proxy voting record for the 12-month period ending June 30 of each year. Once filed, the Fund's proxy voting record will be available without charge, upon request, by calling toll-free 1-888-736-1227 (1-888-7361CAP) and on the SEC's web site at [www.sec.gov](http://www.sec.gov).

### **ANTI-MONEY LAUNDERING PROGRAM**

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). In order to ensure compliance with this law, the Program provides for the development and implementation of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Distributor and The Fund's Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity, checking shareholder names against designated government lists, including Office of Foreign Assets Control ("OFAC"), and a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

### **PORTFOLIO HOLDINGS INFORMATION**

The Trust has adopted policies and procedures regarding disclosure of portfolio holdings information (the "Disclosure Policy"). The Board of Trustees determined that the adoption of the Disclosure Policy, including the disclosure permitted therein, was in the best interests of the Trust. The Disclosure Policy applies to the Fund, Advisor, Sub-Advisor and other internal parties involved in the administration, operation or custody of the Fund, including, but not limited to UMBFS, MFAC, the Board of Trustees, counsel to the Trust, Morgan Lewis, counsel to the Independent Trustees, Paul Hastings, and the Fund's independent registered public accounting firm, Tait Weller (collectively, the "Service Providers"). Pursuant to the Disclosure Policy, non-public information concerning the Fund's portfolio holdings may be disclosed to its Service Providers only if such disclosure is consistent with the antifraud provisions of the federal securities laws and the fiduciary duties owed by the Fund and the Advisor to the Fund's shareholders. The Fund and their Service Providers may not receive compensation or any other consideration (which includes any agreement to maintain assets in the Fund or in other investment companies or accounts managed by the Advisor, Sub-Advisor or any affiliated person of the Advisor or the Sub-Advisor) in connection with the disclosure of portfolio holdings information of the Fund. The Fund's Disclosure Policy is implemented and overseen by the CCO, subject to the oversight of the Board of Trustees. Periodic reports regarding these procedures will be provided to the Trust's Board.

Portfolio holdings information will be deemed public when it has been (1) posted to the Fund's public website at [www.361funds.com](http://www.361funds.com) or (2) disclosed in periodic regulatory filings on the SEC's website ([www.sec.gov](http://www.sec.gov)). Management of the Fund may make publicly available its portfolio holdings as of the most recent calendar quarter on the Fund's public website no earlier than five days after the date of such information (e.g., information as of January 31 may be made available no earlier than February 5).

***Non-Public Portfolio Holdings Information Policy.*** All portfolio holdings information that has not been disseminated in a manner making it available to investors generally as described above is considered non-public portfolio holdings information for the purposes of the Disclosure Policy. Pursuant to the Disclosure Policy, the Fund or its Service Providers may disclose non-public portfolio holdings information to certain third parties who fall within pre-authorized categories on a daily basis, with no lag time unless otherwise specified below. These third parties include: (i) the Fund's Service Providers and others who need access to such information in the performance of their contractual or other duties and responsibilities to the Fund (e.g., custodians, accountants, the Advisor, the Sub-Advisor, administrators, attorneys, officers and Trustees) and who are subject to duties of confidentiality imposed by law or contract, (ii) brokers who execute trades for the Fund, (iii) evaluation service providers (as described below) and (iv) shareholders receiving in-kind redemptions (as described below).

***Evaluation Service Providers.*** These third parties include mutual fund evaluation services, such as Morningstar, Inc. and Lipper, Inc., if the Fund have a legitimate business purpose for disclosing the information, provided that the third party expressly agrees to maintain the non-public portfolio holdings information in confidence and not to trade portfolio securities based on the non-public portfolio holdings information. Subject to the terms and conditions of any agreement between the Fund or its authorized service providers and the third party, if these conditions for disclosure are satisfied, there shall be no restriction on the frequency with which the Fund's non-public portfolio holdings information is released, and no lag period shall apply. In addition, persons who owe a duty of trust or confidence to the Fund or their Service Providers (such as legal counsel) may receive non-public portfolio holdings information without entering into a non-disclosure agreement.

***Shareholder In-Kind Distributions.*** The Fund may, in certain circumstances, pay redemption proceeds to a shareholder by an in-kind distribution of portfolio securities (instead of cash). In such circumstances, pursuant to the Disclosure Policy, Fund shareholders may receive a complete listing of the portfolio holdings of the Fund up to seven (7) calendar days prior to making the redemption request provided that they represent orally or in writing that they agree to maintain the confidentiality of the portfolio holdings information and not to trade portfolio securities based on the non-public holdings information.

***Other Entities.*** Pursuant to the Disclosure Policy, the Fund or the Advisor may disclose non-public portfolio holdings information to a third party who does not fall within the pre-approved categories, and who are not executing broker-dealers; however, prior to the receipt of any non-public portfolio holdings information by such third party, the recipient must have entered into a non-disclosure agreement and the disclosure arrangement must have been approved by the CCO of the Trust. The CCO will report to the Board of Trustees on a quarterly basis regarding any recipients of non-public portfolio holdings information approved pursuant to this paragraph. There are no other ongoing arrangements as of the date of this SAI.

The Advisor and Sub-Advisor and their affiliates may provide investment advice to clients other than the Fund that have investment objectives that may be substantially similar to those of the Fund. These clients also may have portfolios consisting of holdings substantially similar to those of the Fund and generally have access to current portfolio holdings information for their accounts. These clients do not owe the Advisor and Sub-Advisor or the relevant Fund a duty of confidentiality with respect to disclosure of their portfolio holdings.

***Current Arrangements Regarding Disclosure of Portfolio Holdings.*** As of the date of this SAI, the Trust or the Fund has ongoing business arrangements with the following entities which involve making portfolio holdings information available to such entities as an incidental part of the services they provide to the Trust or to the Fund: (i) the Advisor, the Sub-Advisor, MFAC and UMB (the Co-Administrators) and UMB Bank, N.A. (the Custodian) pursuant to investment management, administration and custody agreements, respectively, under which the Trust's portfolio holdings information is provided daily on a real-time basis (i.e., with no time lag); (ii) Tait Weller (independent registered public accounting firm), Morgan Lewis and Paul Hastings (attorneys) and other professionals engaged by the Trust to whom the Trust provides portfolio holdings information on a regular basis with varying lag times after the date of the information, and (iii) Morningstar, Inc., Lipper Inc., Thomson Financial, Vickers Stock Research Corporation, Electra Information Systems and Bloomberg L.P., to which the Fund's portfolio holdings information is provided quarterly after the end of the previous fiscal quarter, with a 60-day time lag and no earlier than the date such information is filed on the SEC's EDGAR system on Form N-Q (for the first and third fiscal quarters) or the Annual or Semi-Annual Report is mailed to shareholders (for the second and fourth fiscal quarters), as applicable.

## DETERMINATION OF NET ASSET VALUE

The net asset values per share (the “NAVs”) of the Fund’s shares will fluctuate and are determined as of 4:00 p.m. Eastern Time, the normal close of regular trading on the New York Stock Exchange (the “NYSE”) on each day the NYSE is open for trading. The NAVs may be calculated earlier if permitted by the SEC. The NYSE annually announces the days on which it will not be open for trading. The most recent announcement indicates that the NYSE will not be open for the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. However, the NYSE may close on days not included in that announcement.

The NAV of a class is computed by dividing (a) the difference between the value of the Fund’s securities, cash and other assets and the amount of the Fund’s expenses and liabilities attributable to the class by (b) the number of shares outstanding in that class (assets – liabilities / # of shares = NAV). Each NAV takes into account all of the expenses and fees of that class of the Fund, including management fees and administration fees, which are accrued daily.

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{NAV}$$

Generally, the Fund’s investments are valued at market value or, in the absence of a market value, at fair value as determined in good faith by the Advisor and the Trust’s Valuation Committee pursuant to procedures approved by or under the direction of the Board. Pursuant to those procedures, the Board considers, among other things: 1) the last sale price on the securities exchange, if any, on which a security is primarily traded; 2) the mean between the bid and ask prices; 3) price quotations from an approved pricing service (which use information provided by market makers or estimates of market value based on similar securities), and 4) other factors as necessary to determine a fair value under certain circumstances.

The Fund’s securities which are traded on securities exchanges are valued at the last sale price on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any reported sales, at the mean between the last available bid and ask prices.

Securities that are traded on more than one exchange are valued on the exchange determined by the Advisor to be the primary market. Securities primarily traded in the National Association of Securities Dealers Automated Quotation (“NASDAQ”), National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price (“NOCP”). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has not been any sale on such day, at the mean between the bid and ask prices. Over-the-counter (“OTC”) securities which are not traded in the NASDAQ National Market System are valued at the most recent trade price.

Stocks that are “thinly traded” or events occurring when a foreign market is closed but the NYSE is open (for example, the value of a security held by the Fund has been materially affected by events occurring after the close of the exchange or market on which the security is principally traded) may create a situation where a market quote would not be readily available. When a market quote is not readily available, the security’s value is based on “fair value” as determined by procedures adopted by the Board. The Board will periodically review the reliability of the Fund’s fair value methodology. The Fund may hold portfolio securities, such as those traded on foreign securities exchanges that trade on weekends or other days when the Fund’s shares are not priced. Therefore, the value of the Fund’s shares may change on days when shareholders will not be able to purchase or redeem shares.

Short-term debt obligations with remaining maturities in excess of 60 days are valued at current market prices, as discussed above. Short-term securities with 60 days or less remaining to maturity are, unless conditions indicate otherwise, amortized to maturity based on their cost to the Fund if acquired within 60 days of maturity or, if already held by the Fund on the 60<sup>th</sup> day, based on the value determined on the 61<sup>st</sup> day.

All other assets of the Fund are valued in such manner as the Board in good faith deems appropriate to reflect as their fair value.

## PURCHASE AND REDEMPTION OF FUND SHARES

Detailed information on the purchase and redemption of shares is included in the Fund's Prospectus. Shares of the Fund are sold at the next offering price calculated after receipt of an order for purchase. In order to purchase shares of the Fund, you must invest the initial minimum investment for the relevant class of shares. However, the Fund reserves the right, in its sole discretion, to waive the minimum initial investment amount for certain investors, or to waive or reduce the minimum initial investment for 401(k) plans or other tax-deferred retirement plans. You may purchase shares on any day that the NYSE is open for business by placing orders with the Fund.

The Fund reserves the right to refuse any purchase requests, particularly those that would not be in the best interests of the Fund or its shareholders and could adversely affect the Fund or its operations. This includes those from any individual or group who, in the Fund's view, is likely to engage in or has a history of excessive trading (usually defined as more than four round-trip transactions out of the Fund within a calendar year). Furthermore, the Trust may suspend the right to redeem its shares or postpone the date of payment upon redemption for more than seven calendar days (i) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (ii) for any period during which an emergency exists affecting the sale of the Fund's securities or making such sale or the fair determination of the value of the Fund's net assets not reasonably practicable; or (iii) for such other periods as the SEC may permit for the protection of the Fund's shareholders. In addition, if shares are purchased using a check and a redemption is requested before the check has cleared, the Fund may postpone payment of the redemption proceeds up to 15 days while the Fund waits for the check to clear.

***Redemptions In Kind.*** The Trust has filed an election under SEC Rule 18f-1 committing to pay in cash all redemptions by a shareholder of record up to amounts specified by the rule (the lesser of (i) \$250,000 or (ii) 1% of the Fund's assets). The Fund has reserved the right to pay the redemption price of its shares in excess of the amounts specified by the rule, either totally or partially, by an in-kind distribution of portfolio securities (instead of cash). The securities so distributed would be valued at the same amounts as those assigned to them in calculating the NAV for the Fund shares being redeemed. If a shareholder receives an in-kind distribution, the shareholder could incur brokerage or other charges in converting the securities to cash.

The Fund does not intend to hold any significant percentage of their portfolio in illiquid securities, although the Fund, like virtually all mutual funds, may from time to time hold a small percentage of securities that are illiquid. In the unlikely event the Fund were to elect to make an in-kind redemption, the Fund expects that it would follow the normal protocol of making such distribution by way of a pro rata distribution based on its entire portfolio. If the Fund held illiquid securities, such distribution may contain a pro rata portion of such illiquid securities or the Fund may determine, based on a materiality assessment, not to include illiquid securities in the in-kind redemption. The Fund do not anticipate that it would ever selectively distribute a greater than pro rata portion of any illiquid securities to satisfy a redemption request. If such securities are included in the distribution, shareholders may not be able to liquidate such securities and may be required to hold such securities indefinitely. Shareholders' ability to liquidate such securities distributed in-kind may be restricted by resale limitations or substantial restrictions on transfer imposed by the issuers of the securities or by law. Shareholders may only be able to liquidate such securities distributed in-kind at a substantial discount from their value, and there may be higher brokerage costs associated with any subsequent disposition of these securities by the recipient.

## FEDERAL INCOME TAX MATTERS

The following is a summary of certain material U.S. federal (and, where noted, state and local) income tax considerations affecting the Fund and its shareholders. The discussion is very general. Current and prospective shareholders are therefore urged to consult their own tax advisors with respect to the specific federal, state, local and foreign tax consequences of investing in the Fund. The summary is based on the laws in effect on the date of this SAI and existing judicial and administrative interpretations thereof, all of which are subject to change, possibly with retroactive effect.

The Fund is treated as a separate entity from other series of the Trust for federal income tax purposes. The Fund has elected (or intends to elect) to be, and intends to qualify each year for treatment as, a "regulated investment company" under Subchapter M of the Code by complying with all applicable requirements of the Code, including, among other things, requirements as to the sources of the Fund's income, diversification of the Fund's assets and timing of Fund

distributions. To so qualify, the Fund must, among other things: (a) derive at least 90% of its gross income in each taxable year from dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock or securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities or currencies, and net income derived from interests in “qualified publicly traded partnerships” (i.e., partnerships that are traded on an established securities market or tradable on a secondary market, other than partnerships that derive 90% of their income from interest, dividends, capital gains, and other traditionally permitted mutual fund income); (b) diversify its holdings so that, at the end of each quarter of the Fund’s taxable year, (i) at least 50% of the market value of the Fund’s assets is represented by cash, securities of other regulated investment companies, U.S. government securities and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater than 5% of the Fund’s assets and not greater than 10% of the outstanding voting securities of such issuer and (ii) not more than 25% of the value of its assets is invested in the securities (other than U.S. government securities or securities of other regulated investment companies) of any one issuer, in the securities (other than the securities of other regulated investment companies) of any two or more issuers that the Fund controls and that are determined to be engaged in the same or similar trades or businesses or related trades or businesses, or in the securities of one or more “qualified publicly traded partnerships”; and (c) distribute an amount equal to the sum of at least 90% of its investment company taxable income (computed without regard to the dividends-paid deduction) and 90% of its net tax-exempt income, if any, for the tax year (including, for purposes of satisfying this distribution requirement, certain distributions made by the Fund after the close of its taxable year that are treated as made during such taxable year).

As a regulated investment company, the Fund will not be subject to U.S. federal income tax on the portion of its taxable investment income and capital gains that it distributes to its shareholders provided that it satisfies a minimum distribution requirement. In order to also avoid liability for a non-deductible federal excise tax, the Fund must distribute (or be deemed to have distributed) by December 31 of each calendar year at least the sum of (i) 98% of its ordinary income for such year, (ii) 98.2% of the excess of its realized capital gains over its realized capital losses for the 12-month period generally ending on October 31 during such year and (iii) any amounts from the prior calendar year that were not distributed and on which the Fund paid no federal income tax. The Fund will be subject to income tax at regular corporate tax rates on any taxable income or gains that it does not distribute to its shareholders. The Fund's policy is to distribute to its shareholders all investment company taxable income (determined without regard to the deduction for dividends paid) and any net capital gain (the excess of net long-term capital gain over net short-term capital loss) for each fiscal year in a manner that complies with the distribution requirements of the Code, so that the Fund will not be subject to any federal income or excise taxes.

If, for any taxable year, the Fund were to fail to qualify as a regulated investment company or were to fail to meet certain minimum distribution requirements under the Code, it would be taxed in the same manner as an ordinary corporation and distributions to its shareholders would not be deductible by the Fund in computing its taxable income. In addition, in the event of a failure to qualify, the Fund’s distributions, to the extent derived from the Fund’s current or accumulated earnings and profits, including any distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss), would be taxable to shareholders as ordinary dividend income for federal income tax purposes. However, such dividends would be eligible, subject to any generally applicable limitations, (i) to be treated as qualified dividend income in the case of shareholders taxed as individuals and (ii) for the dividends-received deduction in the case of corporate shareholders. Moreover, if the Fund were to fail to qualify as a regulated investment company in any year, it would be required to pay out its earnings and profits accumulated in that year in order to qualify again as a regulated investment company. Under certain circumstances, the Fund may be able to cure a failure to qualify as a regulated investment company, but in order to do so the Fund might incur significant Fund-level taxes and might be forced to dispose of certain assets. If the Fund failed to qualify as a regulated investment company for a period greater than two taxable years, the Fund would generally be required to recognize any net built-in gains with respect to certain of its assets upon a disposition of such assets within ten years of qualifying as a regulated investment company in a subsequent year.

Shareholders generally will be subject to federal income taxes on distributions made by the Fund whether paid in cash or additional shares. Distributions of net investment income (including interest, dividend income and net short-term capital gain in excess of any net long-term capital loss, less certain expenses), other than qualified dividend income, will be taxable to shareholders as ordinary income. Distributions of qualified dividend income generally will be taxed to

non-corporate shareholders at the federal income tax rates applicable to net capital gain, provided the Fund reports the amount distributed as qualified dividend income.

In general, dividends may be reported by the Fund as qualified dividend income if they are attributable to qualified dividend income received by the Fund. Qualified dividend income generally means dividend income received from the Fund's investments in common and preferred stock of U.S. companies and stock of certain qualified foreign corporations, provided that certain holding period and other requirements are met by both the Fund and its shareholders. If 95% or more of the Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

A foreign corporation is treated as a qualified foreign corporation for this purpose if it is incorporated in a possession of the United States or it is eligible for the benefits of certain income tax treaties with the United States and meets certain additional requirements. Certain foreign corporations that are not otherwise qualified foreign corporations will be treated as qualified foreign corporations with respect to dividends paid by them if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Passive foreign investment companies are not qualified foreign corporations for this purpose. Dividends received by the Fund from REITs generally do not qualify for treatment as qualified dividend income.

Dividends paid by the Fund may qualify in part for the dividends-received deduction available to corporate shareholders, provided the Fund reports the amount distributed as a qualifying dividend and certain holding period and other requirements under the Code are satisfied. The reported amount, however, cannot exceed the aggregate amount of qualifying dividends received by the Fund for its taxable year. Eligibility for qualified dividend income treatment and the dividends-received deduction may be reduced or eliminated if, among other things, (i) the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property or (ii) certain holding period requirements are not satisfied at both the Fund and shareholder levels. In addition, qualified dividend income treatment is not available if a shareholder elects to have the dividend income treated as investment income for purposes of the limitation on deductibility of investment interest.

Distributions of net capital gain, if any, that the Fund reports as capital gain dividends will be taxable to non-corporate shareholders as long-term capital gain without regard to how long a shareholder has held shares of the Fund. The Fund may retain certain amounts of capital gains and designate them as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amounts so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on those undistributed amounts against their federal income tax liabilities and to claim refunds to the extent such credits exceed their liabilities and (iii) will be entitled to increase their federal income tax basis in their shares by an amount equal to the excess of the amounts of undistributed net capital gain included in their respective income over their respective income tax credits.

Distributions in excess of earnings and profits will, as to each shareholder, be treated as a tax-free return of capital to the extent of the shareholder's basis in his or her Fund shares. A distribution treated as a return of capital will reduce the shareholder's basis in his or her shares, which will result in an increase in the amount of gain (or a decrease in the amount of loss) that will be recognized by the shareholder for tax purposes on a later sale of such shares. After the shareholder's basis is reduced to zero, any distributions in excess of earnings and profits will be treated as a capital gain, assuming the shareholder holds his or her shares as capital assets.

A 3.8% Medicare contribution tax generally applies to all or a portion of the net investment income of a shareholder who is an individual and not a nonresident alien for federal income tax purposes and who has adjusted gross income (subject to certain adjustments) that exceeds a threshold amount (\$250,000 if married filing jointly or if considered a "surviving spouse" for federal income tax purposes, \$125,000 if married filing separately, and \$200,000 in other cases). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts. For these purposes, interest, dividends and certain capital gains (among other categories of income) are generally taken into account in computing a shareholder's net investment income.

Certain tax-exempt educational institutions will be subject to a 1.4% tax on net investment income. For these purposes, certain dividends and capital gain distributions, and certain gains from the disposition of Fund shares (among other categories of income), are generally taken into account in computing a shareholder's net investment income.

Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid the following January are taxable for federal income tax purposes as if received on December 31 of the calendar year in which declared. Distributions are includable in alternative minimum taxable income in computing a shareholder's liability for the federal alternative minimum tax. In addition, certain distributions made after the close of a taxable year of the Fund may be "spilled back" and treated for certain purposes as paid by the Fund during such taxable year. In such case, shareholders generally will be treated as having received such dividends in the taxable year in which the distributions were actually made. For purposes of calculating the amount of a regulated investment company's undistributed income and gain subject to the 4% excise tax described above, such "spilled back" dividends are treated as paid by the regulated investment company when they are actually paid.

A redemption of Fund shares may result in recognition of a taxable gain or loss. The gain or loss will generally be treated as a long-term capital gain or loss if the shares are held for more than one year, and as a short-term capital gain or loss if the shares are held for one year or less. Any loss realized upon a redemption or exchange of shares held for six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions of long-term capital gains during such six-month period. Any loss realized upon a redemption may be disallowed under certain wash sale rules to the extent shares of the Fund or substantially identical stock or securities are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the redemption.

If a shareholder recognizes a loss with respect to the Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the Internal Revenue Service (the "IRS") a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases exempted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not exempted. The fact that a loss is so reportable does not affect the legal determination of whether the taxpayer's treatment of the loss is proper.

The Fund's transactions in options and other similar transactions, such as futures, may be subject to special provisions of the Code that, among other things, affect the character of any income realized by the Fund from such investments, accelerate recognition of income to the Fund, defer Fund losses, affect the holding period of the Fund's securities, affect whether distributions will be eligible for the dividends-received deduction or be treated as qualified dividend income and affect the determination of whether capital gain and loss is characterized as long-term or short-term capital gain or loss. These rules could therefore affect the character, amount and timing of distributions to shareholders. These provisions may also require the Fund to "mark-to-market" certain types of the positions in its portfolio (i.e., treat them as if they were closed out), which may cause the Fund to recognize income without receiving cash with which to make distributions in amounts necessary to satisfy the distribution requirements for avoiding U.S. federal income and excise taxes. The Fund will monitor these transactions and will make the appropriate entries in their books and records, and if the Fund deems it advisable, will make appropriate elections if available in order to mitigate the effect of these rules, prevent disqualification of the Fund as regulated investment companies and minimize the imposition of U.S. federal income and excise taxes.

The Fund's transactions in broad based equity index futures contracts, exchange-traded options on such indices and certain other futures contracts are generally considered "Section 1256 contracts" for federal income tax purposes. Any unrealized gains or losses on such Section 1256 contracts are treated as though they were realized at the end of each taxable year. The resulting gain or loss is treated as 60% long-term capital gain or loss and 40% short-term capital gain or loss. Gain or loss recognized on actual sales of Section 1256 contracts is treated in the same manner. As noted above, distributions of net short-term capital gain are taxable to shareholders as ordinary income while distributions of net long-term capital gain are taxable to shareholders as long-term capital gain, regardless of how long the shareholder has held shares of the Fund.

The Fund's entry into a short sale transaction, an option or certain other contracts, such as futures, could be treated as the constructive sale of an appreciated financial position, causing the Fund to realize gain, but not loss, on the position.

If the Fund invests in certain pay-in-kind securities, zero coupon securities, deferred interest securities or, in general, any other securities with original issue discount (or with market discount if the Fund elects to include market discount in income currently), the Fund must accrue income on such investments for each taxable year, which generally will be prior to the receipt of the corresponding cash payments. However, the Fund must distribute, at least annually, all or substantially all of its investment company taxable income (determined without regard to the deduction for dividends paid), including such accrued income to shareholders to avoid federal income and excise taxes. Therefore, the Fund may have to sell portfolio securities (potentially under disadvantageous circumstances) to generate cash, or may have to undertake leverage by borrowing cash, to satisfy these distribution requirements. Dispositions of portfolio securities may result in additional gains and additional distribution requirements.

If the Fund invests in a market discount bond, it will be required to treat any gain recognized on the disposition of such market discount bond as ordinary income (instead of capital gain) to the extent of the accrued market discount, unless the Fund elects to include the market discount in income as it accrues as discussed above. A market discount bond is a security acquired in the secondary market at a price below its redemption value (or its adjusted issue price if it is also an original issue discount bond).

The Fund may be subject to withholding and other taxes imposed by foreign countries, including taxes on interest, dividends and capital gains with respect to its investments in those countries, which would, if imposed, reduce the yield on or return from those investments. Tax treaties between certain countries and the United States may reduce or eliminate such taxes in some cases. So long as the Fund qualifies for treatment as a regulated investment company and incurs "qualified foreign taxes," if more than 50% of its net assets at the close of its taxable year consist of stock or securities of foreign corporations, the Fund may elect to "pass through" to its shareholders the amount of such foreign taxes paid. If this election is made, information with respect to the amount of the foreign income taxes that are allocated to the Fund's shareholders will be provided to them and any shareholder subject to tax on dividends will be required (i) to include in ordinary gross income (in addition to the amount of the taxable dividends actually received) its proportionate share of the foreign taxes paid that are attributable to such dividends; and (ii) either to deduct his/her proportionate share of such foreign taxes in computing his/her taxable income or to claim that amount as a foreign tax credit (subject to applicable limitations) against U.S. income taxes.

Shareholders who do not itemize deductions for U.S. federal income tax purposes will not be able to deduct their pro rata portion of qualified foreign taxes paid by the Fund, although such shareholders will be required to include their shares of such taxes in gross income if the Fund makes the election described above. Qualified foreign taxes generally include taxes that would be treated as income taxes under U.S. tax regulations but do not include most other taxes, such as stamp taxes, securities transaction taxes, and similar taxes. No deduction for such taxes will be permitted to individuals in computing their alternative minimum tax liability.

If the Fund makes the election to pass through qualified foreign taxes and a shareholder chooses to take a credit for the foreign taxes deemed paid by such shareholder, the amount of the credit that may be claimed in any year may not exceed the same proportion of the U.S. tax against which such credit is taken that the shareholder's taxable income from foreign sources (but not in excess of the shareholder's entire taxable income) bears to his entire taxable income. For this purpose, long-term and short-term capital gains the Fund realizes and distributes to shareholders will generally not be treated as income from foreign sources in their hands, nor will distributions of certain foreign currency gains subject to Section 988 of the Code or of any other income realized by the Fund that is deemed, under the Code, to be U.S.-source income in the hands of the Fund. This foreign tax credit limitation may also be applied separately to certain specific categories of foreign-source income and the related foreign taxes. As a result of these rules, which may have different effects depending upon each shareholder's particular tax situation, certain shareholders may not be able to claim a credit for the full amount of their proportionate share of the foreign taxes paid by the Fund. Shareholders who are not liable for U.S. federal income taxes, including tax-exempt shareholders, will ordinarily not benefit from this election. If the Fund does make the election, it will provide required tax information to shareholders. The Fund generally may deduct any foreign taxes that are not passed through to its shareholders in computing its income available for distribution to shareholders to satisfy applicable tax distribution requirements. Under certain circumstances, if the Fund receives a refund of foreign taxes paid in respect of a prior year, the value of the Fund's shares could be reduced, or any foreign tax credits or deductions passed through to shareholders in respect of the Fund's foreign taxes for the current year could be reduced.

Foreign exchange gains or losses realized by the Fund in connection with certain transactions involving foreign currency-denominated debt securities, certain options and futures contracts relating to foreign currency, foreign currency forward contracts, foreign currencies, or payables or receivables denominated in a foreign currency are subject to Section 988 of the Code, which generally causes such gains or losses to be treated as ordinary gain or loss and may affect the amount, timing and character of distributions to shareholders.

If a sufficient percentage of the interests in a foreign issuer are held by the Fund, independently or together with certain other U.S. persons, that issuer may be treated as a “controlled foreign corporation” (a “CFC”) with respect to the Fund, in which case the Fund will be required to take into account each year, as ordinary income, its share of certain portions of that issuer’s income, whether or not such amounts are distributed. The Fund may have to dispose of its portfolio securities (potentially resulting in the recognition of taxable gain or loss, and potentially under disadvantageous circumstances) to generate cash, or may have to borrow the cash, to meet its distribution requirements and avoid Fund-level taxes. Under proposed Treasury Regulations, certain income derived by the Fund from a CFC for a taxable year would generally constitute qualifying income only to the extent the CFC makes distributions in respect of that income to the Fund for that taxable year. In addition, some Fund gains on the disposition of interests in such an issuer may be treated as ordinary income. The Fund may limit and/or manage its holdings in issuers that could be treated as CFCs in order to limit its tax liability or maximize its after-tax return from these investments.

The Fund is required to withhold (as “backup withholding”) a portion of reportable payments, including dividends, capital gain distributions and the proceeds of redemptions and exchanges or repurchases of Fund shares, paid to shareholders who have not complied with certain IRS regulations. The backup withholding rate is currently 24%. In order to avoid this withholding requirement, shareholders, other than certain exempt entities, must certify on IRS Forms W-9 or on certain other documents, that the Social Security Numbers or other Taxpayer Identification Numbers they provide are their correct numbers and that they are not currently subject to backup withholding, or that they are exempt from backup withholding. The Fund may nevertheless be required to backup withhold if it receives notice from the IRS or a broker that a number provided is incorrect or that backup withholding is applicable as a result of previous underreporting of interest or dividend income.

Ordinary dividends and certain other payments made by the Fund to non-U.S. shareholders are generally subject to withholding tax at a 30% rate (or a lower rate as may be determined in accordance with any applicable treaty). In order to obtain a reduced rate of withholding, a non-U.S. shareholder will be required to provide an IRS Form W-8BEN or similar form certifying its entitlement to benefits under a treaty. The withholding tax does not apply to regular dividends paid to a non-U.S. shareholder who provides an IRS Form W-8ECI, certifying that the dividends are effectively connected with the non-U.S. shareholder’s conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the non-U.S. shareholder were a U.S. shareholder. A non-U.S. corporation receiving effectively connected dividends may also be subject to additional “branch profits tax” imposed at a rate of 30% (or a lower treaty rate).

The 30% withholding tax described in the preceding paragraph generally will not apply to distributions of net capital gain, to redemption proceeds, or to dividends that the Fund reports as (a) interest-related dividends, to the extent such dividends are derived from the Fund’s “qualified net interest income,” or (b) short-term capital gain dividends, to the extent such dividends are derived from the Fund’s “qualified short-term gain.” “Qualified net interest income” is the Fund’s net income derived from U.S.-source interest and original issue discount, subject to certain exceptions and limitations. “Qualified short-term gain” generally means the excess of the net short-term capital gain of the Fund for the taxable year over its net long-term capital loss, if any. In order to qualify for an exemption from withholding, a non-U.S. shareholder will need to comply with applicable certification requirements relating to its non-U.S. status (including, in general, furnishing an IRS Form W-8BEN or other applicable form). Backup withholding will not be applied to payments that are subject to this 30% withholding tax.

Unless certain non-U.S. entities that hold Fund shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to the Fund’s distributions and, after December 31, 2018, to redemptions and certain capital gain dividends payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this

paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of such agreement.

This discussion and the related discussion in the Prospectus have been prepared by management of the Fund, and counsel to the Trust has expressed no opinion in respect thereof.

Shareholders and prospective shareholders of Fund should consult their own tax advisors concerning the effect of owning shares of the Fund in light of their particular tax situations.

## **DIVIDENDS AND DISTRIBUTIONS**

The Fund will receive income in the form of dividends and interest earned on its investments in securities. This income, less the expenses incurred in its operations, is the Fund's net investment income, substantially all of which will be declared as dividends to the Fund's shareholders.

The amount of income dividend payments by the Fund is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed and is subject to the discretion of the Board. The Fund does not pay "interest" or guarantee any fixed rate of return on an investment in its shares.

The Fund also may derive capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain the Fund may realize from transactions involving investments held for less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses (taking into account any available carryover of capital losses), although a distribution from capital gains, will be distributed to shareholders with and as a part of the income dividends paid by the Fund and will be taxable to shareholders as ordinary income for federal income tax purposes. If during any year the Fund realizes a net gain on transactions involving investments held for more than the period required for long-term capital gain or loss recognition or otherwise producing long-term capital gains and losses, the Fund will have a net long-term capital gain. After deduction of the amount of any net short-term capital loss, the balance (to the extent not offset by any capital losses available to be carried over) generally will be distributed and treated as long-term capital gains in the hands of the shareholders regardless of the length of time the Fund's shares may have been held by the shareholders. For more information concerning applicable capital gains tax rates, see your tax advisor.

Any dividend or distribution paid by the Fund reduces the Fund's NAV on the date paid by the amount of the dividend or distribution per share. Accordingly, a dividend or distribution paid shortly after a purchase of shares by a shareholder will generally be taxable, even if it effectively represents a partial return of the shareholder's capital.

Dividends and other distributions will be made in the form of additional shares of the Fund unless the shareholder has otherwise indicated. Investors have the right to change their elections with respect to the reinvestment of dividends and distributions by notifying the Transfer Agent in writing, but any such change will be effective only as to dividends and other distributions for which the record date is seven or more business days after the Transfer Agent has received the written request.

The Fund's investments in partnerships, if any, including in qualified publicly traded partnerships, may result in that Fund being subject to state, local or foreign income, franchise or withholding tax liabilities.

## **GENERAL INFORMATION**

Investment Managers Series Trust is an open-end management investment company organized as a Delaware statutory trust under the laws of the State of Delaware on February 15, 2005. The Trust has a number of outstanding series of shares of beneficial interest, each of which represents interests in a separate portfolio of securities. The Trust's Declaration of Trust permits the Trustees to create additional series of shares to issue an unlimited number of full and fractional shares of beneficial interest of each series, including the Fund, and to divide or combine the shares of any series into a greater or lesser number of shares without thereby changing the proportionate beneficial interest in the series. The assets belonging to a series are charged with the liabilities in respect of that series and all expenses, costs, charges and reserves attributable to that series only. Therefore, any creditor of any series may look only to the assets

belonging to that series to satisfy the creditor's debt. Any general liabilities, expenses, costs, charges or reserves of the Trust which are not readily identifiable as pertaining to any particular series are allocated and charged by the Trustees to and among the existing series in the sole discretion of the Trustees. Each share of the Fund represents an interest in the Fund proportionately equal to the interest of each other share. Upon the Fund's liquidation, all shareholders would share pro rata in the net assets of the Fund available for distribution to shareholders.

The Trust may offer more than one class of shares of any series. Each share of a series or class represents an equal proportionate interest in that series or class with each other share of that series or class. The Fund currently offers Investor Class, Class I and Class Y shares. The Trust has reserved the right to create and issue additional series or classes. Each share of a series or class represents an equal proportionate interest in that series or class with each other share of that series or class.

The shares of each series or class participate equally in the earnings, dividends and assets of the particular series or class. Expenses of the Trust, which are not attributable to a specific series or class, are allocated among all the series in a manner believed by management of the Trust to be fair and equitable. Shares issued do not have pre-emptive or conversion rights. Shares when issued are fully paid and non-assessable, except as set forth below. Shareholders are entitled to one vote for each share held. Shares of each series or class generally vote together, except when required under federal securities laws to vote separately on matters that only affect a particular series or class, such as the approval of distribution plans for a particular class.

The Trust is not required to hold annual meetings of shareholders but will hold special meetings of shareholders of a series or class when, in the judgment of the Board, it is necessary or desirable to submit matters for a shareholder vote. Shareholders have, under certain circumstances, the right to communicate with other shareholders in connection with requesting a meeting of shareholders for the purpose of removing one or more Trustees. Shareholders also have, in certain circumstances, the right to remove one or more trustees without a meeting. No material amendment may be made to the Trust's Declaration of Trust without the affirmative vote of the holders of a majority of the outstanding shares of each portfolio affected by the amendment.

The Trust's Declaration of Trust provides that, at any meeting of shareholders of the Trust or of any series or class, a shareholder servicing agent may vote any shares as to which such shareholder servicing agent is the agent of record for shareholders who are not represented in person or by proxy at the meeting, proportionately in accordance with the votes cast by holders of all shares of that portfolio otherwise represented at the meeting in person or by proxy as to which such shareholder servicing agent is the agent of record. Any shares so voted by a shareholder servicing agent will be deemed represented at the meeting for purposes of quorum requirements. Any series or class may be terminated (i) upon the merger or consolidation with, or the sale or disposition of all or substantially all of its assets to, another entity, if approved by the vote of the holders of two-thirds of its outstanding shares, except that if the Board recommends such merger, consolidation or sale or disposition of assets, the approval by vote of the holders of a majority of the series' or class' outstanding shares will be sufficient, or (ii) by the vote of the holders of a majority of its outstanding shares, or (iii) by the Board by written notice to the series' or class' shareholders. Unless each series and class is so terminated, the Trust will continue indefinitely.

Shareholders may send communications to the Board. Shareholders should send communications intended for the Board by addressing the communications to the Board, in care of the Secretary of the Trust and sending the communication to 2220 E. Route 66, Suite 226, Glendora, California 91740. A shareholder communication must (i) be in writing and be signed by the shareholder, (ii) provide contact information for the shareholder, (iii) identify the Fund to which it relates, and (iv) identify the class and number of shares held by the shareholder. The Secretary of the Trust may, in good faith, determine that a shareholder communication should not be provided to the Board because it does not reasonably relate to the Trust or its operations, management, activities, policies, service providers, Board, officers, shareholders or other matters relating to an investment in the Fund or is otherwise immaterial in nature. Other shareholder communications received by the Fund not directly addressed and sent to the Board will be reviewed and generally responded to by management, and will be forwarded to the Board only at management's discretion based on the matters contained therein.

The Declaration of Trust provides that no Trustee or officer of the Trust shall be subject to any personal liability in connection with the assets or affairs of the Trust or any of its series except for losses in connection with his or her

willful misfeasance, bad faith, gross negligence or reckless disregard of his or her duties. The Trust has also entered into an indemnification agreement with each Trustee which provides that the Trust shall advance expenses and indemnify and hold harmless the Trustee in certain circumstances against any expenses incurred by the Trustee in any proceeding arising out of or in connection with the Trustee's service to the Trust, to the maximum extent permitted by the Delaware Statutory Trust Act, the 1933 Act and the 1940 Act, and which provides for certain procedures in connection with such advancement of expenses and indemnification.

The Trust's Declaration of Trust also provides that the Trust shall maintain appropriate insurance (for example, fidelity bonding and errors and omissions insurance) for the protection of the Trust, its shareholders, trustees, officers, employees and agents covering possible tort and other liabilities.

The Declaration of Trust does not require the issuance of stock certificates. If stock certificates are issued, they must be returned by the registered owners prior to the transfer or redemption of shares represented by such certificates.

Rule 18f-2 under the 1940 Act provides that as to any investment company which has two or more series outstanding and as to any matter required to be submitted to shareholder vote, such matter is not deemed to have been effectively acted upon unless approved by the holders of a "majority" (as defined in the rule) of the voting securities of each series affected by the matter. Such separate voting requirements do not apply to the election of Trustees or the ratification of the selection of accountants. The Rule contains special provisions for cases in which an advisory contract is approved by one or more, but not all, series. A change in investment policy may go into effect as to one or more series whose holders so approve the change even though the required vote is not obtained as to the holders of other affected series.

The Trust, the Advisor and the Sub-Advisor have adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These codes of ethics permit, subject to certain conditions, personnel of each of those entities to invest in securities that may be purchased or held by the Fund.

## **FINANCIAL STATEMENTS**

As the Fund has recently commenced operations, there are no financial statements available at this time. Shareholders of the Fund will be informed of the Fund's progress through periodic reports when those reports become available. Financial statements certified by the independent registered public accounting firm will be submitted to shareholders at least annually.

## APPENDIX “A”

### DESCRIPTION OF SHORT-TERM RATINGS

Description of certain short-term ratings assigned by Standard & Poor’s Ratings Services (“S&P”) and Moody’s Investors Service (“Moody’s”):

#### S&P

**A-1** - A short-term obligation rated ‘A-1’ is rated in the highest category by S&P. The obligor’s capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are given a plus sign (+) designation. This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong.

**A-2** - A short-term obligation rated ‘A-2’ is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitment on the obligation is satisfactory.

#### **A-3** - Moody’s *Prime rating system (short-term)*

Issuers rated **Prime-1** (or supporting institutions) have a superior ability for repayment of senior short-term debt obligations. Prime-1 repayment ability will often be evidenced by (a) leading market positions in well-established industries, (b) high rates of return on funds employed, (c) conservative capitalization structure with moderate reliance on debt and ample asset protection, (d) broad margins in earnings coverage of fixed financial charges and high internal cash generation, and (e) well-established access to a range of financial markets and assured sources of alternate liquidity.

Issuers rated **Prime-2** (or supporting institutions) have a strong ability for repayment of senior short-term debt obligations. This will normally be evidenced by many of the characteristics cited above but to a lesser degree. Earnings trends and coverage ratios, while sound, may be more subject to variation. Capitalization characteristics, while still appropriate, may be more affected by external conditions. Ample alternate liquidity is maintained.

Issuers rated **Prime-3** (or supporting institutions) have an acceptable ability for repayment of senior short-term obligations. The effect of industry characteristics and market compositions may be more pronounced. Variability in earnings and profitability may result in changes in the level of debt protection measurements and may require relatively high financial leverage. Adequate alternate liquidity is maintained.

## APPENDIX “B”

### PROXY VOTING POLICIES AND PROCEDURES

#### *361 Capital, LLC – Advisor to the Fund*

### PROXY VOTING POLICY AND PROCEDURES

361 Capital LLC ("361"), as a matter of policy and as a fiduciary to our clients, has responsibility for voting proxies for portfolio securities consistent with the best economic interests of the clients. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm's proxy policies and practices. Our policy and practice includes the responsibility to vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records. Clients are permitted to place reasonable restrictions on 361's voting authority in the same manner that they may place such restrictions on the actual selection of account securities, or to instruct 361 to vote a particular proxy in a certain manner. Direction from a client on a particular proxy vote will take precedence over the pre-determined benchmark proxy voting guidelines.

With respect to those client accounts for which 361 is not authorized to vote proxies or to give consents in connection with corporate actions, 361 directs such clients to arrange to receive proxy solicitation materials directly from their account custodians.

In certain Wrap Programs, 361 may not be delegated the responsibility to vote proxies held by the Wrap Program accounts and, instead, the Sponsor or another service provider will generally vote such proxies. Clients in such Wrap Programs should contact the Sponsor for a copy of the Sponsor's proxy voting policies.

With respect to client accounts subject to ERISA, unless proxy voting responsibility has been expressly reserved and is being exercised by another fiduciary for an ERISA plan, 361 will vote all proxies relating to securities held for the client account and shall make appropriate arrangements with each account custodian to have proxies forwarded, on a timely basis to the appropriate person.

#### **Responsibility**

The CCO, or other designee, has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and recordkeeping, including outlining our voting guidelines in our procedures. To assist 361 in its responsibility for voting proxies and the overall proxy voting process, 361 has retained Institutional Shareholder Services ("ISS"), an expert in the proxy voting and corporate governance area. ISS is an unaffiliated, independent company that specializes in providing a variety of proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors.

The services provided by ISS include in-depth research, global issuer analysis, and voting recommendations as well as vote execution, reporting and recordkeeping. In addition to conducting initial due diligence on ISS, 361 will monitor and review such services at least annually; evaluating any conflicts of interest, consistency of voting with the guidelines, fees, disclosures, among other things. All proxies and the status of each vote are available to clients and subject to review by 361 and are subject to quarterly testing for the proper voting of the proxy.

To the extent applicable, ISS will process all proxy votes in accordance with the pre-determined benchmark proxy voting guidelines.

#### **Voting Guidelines**

ISS' policy formulation process collects feedback from a diverse range of market participants. The ISS Policy Board uses the input to develop its draft policy updates on emerging governance issues each year. The pre-determined benchmark proxy voting guidelines are maintained and implemented by ISS and are extensive lists of

common proxy voting issues with recommended voting actions based on the overall goal of achieving maximum shareholder value and protection of shareholder interests. The pre-determined benchmark proxy voting guidelines contain explicit direction about how the proxies are to be voted. For other issues, the decision about how to vote may be decided on a case-by-case basis using criteria contained in the pre-determined benchmark proxy voting guidelines. Because 361's quantitative investment process does not provide output or analysis that would be functional in analyzing proxy issues, ISS will be performing the analysis of each vote and will vote the issues based on the pre-determined benchmark proxy voting guidelines. Generally, the proxies are voted in accordance with the voting recommendations contained in the pre-determined benchmark proxy voting guidelines. If necessary, 361 Capital will be consulted by ISS on non-routine issues. Proxy issues identified in the pre-determined benchmark proxy voting guidelines include, but are not limited to:

- **Auditor Ratification** - considering factors such as an auditor's financial interest in or association with company, poor accounting practices that rise to a serious level of concern such as fraud, misapplication of GAAP and other material weaknesses identified in Section 404 disclosures, and excessive fees for non-audit services.
- **Board of Directors** - considering factors such as accountability, director performance evaluation, poison pills, problematic audit related practices, problematic compensation/pay-for-performance misalignment, governance failures, and independence, among other factors.
- **Shareholder Rights and Defenses** - considering factors such as the company's stated rationale for adopting such a provision, and disclosure of past harm from shareholder lawsuits in which plaintiffs were unsuccessful or shareholder lawsuits outside the jurisdiction of incorporation.
- **Common Stock/Preferred Stock Authorization** - considering factors such as past Board performance (the company's use of authorized shares during the last three years), disclosures in the proxy statement for the specific purposes of the proposed increase, and the dilutive impact of the request.
- **Mergers and Acquisitions** - considering factors such as valuations, market reaction, strategic rationale, negotiations and process, conflicts of interest, and governance.
- **Compensation** - considering factors such as advisory votes on executive compensation (Management Say on Pay), problematic pay practices, incentives that may motivate excessive risk taking, options backdating, equity based and other incentive plans, among other factors.
- **Social/Environment Issues** - including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues. Additional factors will be considered such as, whether the issues presented in the proposal are more appropriately or effectively dealt with through legislation or government regulation, if the company has already responded in appropriate and sufficient manner, if proposal's request is unduly burdensome (scope or timeline) or overly prescriptive, the company's approach compared with any industry standard practices for addressing the issue raised by the proposal, among other factors.
- **Political Activities** - including lobbying, political contributions and political ties. Factors considered will include the disclosure of a company's political contributions and trade association spending policies and activities, the company's policies, management and board oversight to direct political contributions and trade association spending policies, recent significant controversies, fines, and litigation related to the company's political contributions or political activities.

A full description of each pre-determined benchmark proxy voting guideline and voting policy is available upon request. Email [info@361capital.com](mailto:info@361capital.com) to request a copy of the proxy voting guidelines. Proxy statements received from issuers are available on the SEC's EDGAR website.

## Disclosure

361 Capital will provide information in its Form ADV Part 2A disclosure document summarizing its proxy voting policy and procedures, including statements that clients may request information regarding how 361 Capital voted a client's proxies and a copy of these policies and procedures.

On an annual basis the CCO, or designee(s), will send an Annual Offer to all current advisory clients, offering a current copy of the firm's Form ADV Part 2A disclosure document that shall include the information regarding proxy voting.

### **Client Requests for Information**

All client requests for information regarding proxy votes, or policies and procedures, received by any employee should be forwarded to the CCO or designee.

In response to any request, the CCO or designee will prepare a written response to the client with the information requested, and as applicable will include the name of the issuer, the proposal voted upon, and how 361 voted the client's proxy with respect to each proposal about which client inquired.

### **Conflicts of Interest**

361 Capital will identify any conflicts that exist between the interests of the adviser and the client by reviewing the relationship of 361 Capital with the issuer of each security to determine if 361 Capital or any of its employees has any financial, business or personal relationship with the issuer.

In circumstances when there may be a material conflict of interest between 361 Capital's interests and clients' interests in how proxies are voted (such as, when 361 Capital knows that the proxy issuer is also a 361 Capital client), 361 Capital will vote the proxies in accordance with the recommendations of ISS' pre-determined benchmark proxy voting guidelines. Because the guidelines are pre-determined by ISS and designed to be in the best interest of shareholders, application of the pre-determined guidelines to vote client proxies should, in most cases adequately address any possible conflicts of interest.

361 Capital will maintain a record of the voting resolution of any conflict of interest.

### **SEC Form N-PX**

SEC Form N-PX is filed by Mutual Fund Administration Corporation ("MFAC"), 361 Capital Funds Co-administrator (acting as Filing Agent), by no later than August 31st of each year, and it details all proxies voted on behalf of the fund(s) for the prior twelve months ended June 30th. In connection with the filing on behalf of 361 Funds, the CCO must sign and return no later than July 30th the Form N-PX Certification to MFAC stating 361 has adopted proxy voting policies and procedures in compliance with the SEC's Proxy Voting Rule.

### **Recordkeeping**

361 Capital, in accordance with SEC recordkeeping rules, shall maintain for a period of at least five years from the end of the fiscal year voted: a record of each proxy statement received regarding client securities, records of votes cast on behalf of clients, records of client requests for proxy voting information, a copy of any written response and all documents prepared by 361 Capital regarding votes cast in contradiction to the pre-determined benchmark proxy voting guidelines, and all proxy voting policies and procedures and any amendments.

## **WELLS CAPITAL MANAGEMENT**

### **POLICY AND PROCEDURES FOR PROXY VOTING**

#### **I. Introduction:**

As a fiduciary, Wells Capital Management Inc. (“WellsCap”) is obligated to vote proxies in the best interests of its clients. WellsCap has developed a structure that is designed to ensure that proxy voting is conducted in an appropriate manner, consistent with the clients’ best interest and within the framework of this Proxy Voting Policy and Procedures (“Policy”). WellsCap has adopted this Policy in order to satisfy its fiduciary obligation. It is intended that this Policy also satisfies the requirements of Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended (the “Advisers’ Act”) which requires an investment adviser that exercises voting authority over clients’ proxies to adopt written policies and procedures that are reasonably designed to ensure that those proxies are voted in the best interests of clients and to provide clients with information about how their proxies are voted.

WellsCap manages assets for a variety of clients: Taft-Hartley plans, governmental plans, foundations and endowments, corporations, investment companies and other collective investment vehicles. Unless the client specifically reserves the right to vote their own proxies, WellsCap will vote proxies with a goal of maximizing shareholder value as a long-term investor and consistent with the governing laws and investment policies of each portfolio. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership, WellsCap supports sound corporate governance practices within companies in which they invest.

#### **II. Voting Philosophy:**

When WellsCap accepts delegation from its clients to vote proxies, it does not delegate that authority to any other person or entity, but retains complete authority for voting all proxies on behalf of its clients. Not all clients delegate proxy-voting authority to WellsCap, however, and WellsCap will not vote proxies, or provide advice to clients on how to vote proxies in the absence of specific delegation of authority, a pre-existing contractual agreement, or an obligation under the applicable law (e.g., securities that are held in an investment advisory account for which WellsCap exercises no investment discretion are not voted by WellsCap).

Also, WellsCap may not exercise discretion over shares that the client has committed to a stock loan program, which passes voting rights to the party with possession of the shares, or participate in time phased voting except when required by law. From time to time, WellsCap may participate with a dissident group to vote proxies. In such case, WellsCap’s appointment of an agent for limited purposes will

not be deemed a delegation of authority under this Policy. The WellsCap proxy voting process allows different votes to be submitted for the same security. Our firm is organized as a collection of portfolio teams — each with its own unique investment philosophy and approach. Consistent with this structure, various portfolio managers holding the same securities may arrive at different voting conclusions for their clients’ proxies, to ensure the votes are in the clients’ best interests. WellsCap relies on an independent third party to provide research, administration, and executing votes based on their published guidelines. Notwithstanding, WellsCap retains final authority and fiduciary responsibility for proxy voting. Information regarding WellsCap’s proxy voting decisions are confidential. Therefore, the information may be shared on a need- to-know basis only, including within WellsCap and its affiliates.

### **Responsibilities**

#### 1. Proxy Administrator

WellsCap’s proxy voting process is administered by its Operations Department (“Proxy Administrator”), who reports to WellsCap’s Chief Operations Officer. The Proxy Administrator is responsible for administering and overseeing the proxy voting process to ensure the implementation of the Procedures. The Proxy Administrator monitors third party voting of proxies to ensure it is being done in a timely and responsible manner. The Proxy Administrator in conjunction with the Proxy Committee reviews the continuing appropriateness of the Procedures set forth herein, recommends revisions as necessary and provides an annual update on the proxy voting process.

#### 2. The Proxy Committee: The Proxy Committee is chaired by the Head of Equity Investments. The Committee members are selected from portfolio management groups and include Investment Risk personnel. Members of the Committee are subject to change upon approval from the Committee Chair.

#### 3. Individuals involved in the proxy voting and decision making process will seek advice from WellsCap Legal and/or Compliance with respect to any questions that they have regarding personal conflicts of interests, communications regarding proxies, or other related matters for guidance to the Committee, as necessary.

#### 4. Third Parties

To assist in its proxy-voting responsibilities, WellsCap subscribes to research and other proxy-administration services. Currently, WellsCap has contracted with Institutional Shareholder Services (“ISS”) a provider of proxy-voting services, to provide the following services to WellsCap:

- Independently analyze and make recommendations for proxy proposals in accordance with the relevant voting platform;

- Receive all proxy information sent by custodians that hold securities of WellsCap's Proxy Clients;
- Posts proxy information on its password-protected website, including meeting dates, agendas, and ISS's analysis;
- Provides WellsCap with vote administration and execution, recordkeeping (proxy statements and votes), and reporting support services; and
- Annual analysis and rationale for guideline amendments.

## Methodology

Except in instances where clients have retained voting authority, WellsCap will instruct custodians of client accounts to forward all proxy statements and materials received in respect of client accounts to ISS. The Proxy Administrator reviews this information regularly and communicates with representatives of ISS to ensure that all agendas are considered and proxies are voted on a timely basis.

1. Voting Guidelines. WellsCap, through its proxy voting agent (ISS), votes proxies on different platforms subject to the client's expressed goals. The two key platforms are: (i) the ISS's Proxy Voting Guidelines, and (ii) ISS's Taft Hartley Advisory Services platform, which researches recommendations made by the AFL-CIO. These Guidelines set forth how proxies will be voted on the issues specified. Depending upon the proposal and the platform, the guidelines may provide that proxies be voted "for" or "against" the proposal, or that the proposal should be considered on a case-by-case basis. The guideline may also be silent on a particular proposal, especially regarding foreign securities. ISS will vote proxies for or against as directed by the guidelines. Where the guidelines specify a "case by case" determination for a particular issue, ISS will evaluate the proxies based on thresholds established in the proxy guidelines relative to the platform. In addition, for proxies relating to issues not addressed in the guidelines, ISS will refer the vote to WellsCap. Finally, the Proxy Administrator shall have the authority to direct ISS to forward the proxy to him or her for a discretionary vote, in consultation with the Proxy Committee or the portfolio manager covering the subject security, if the Proxy Committee or the portfolio manager determines that a case-by-case review of such matter is warranted. Where a potential conflict of interest is identified (as described herein), WellsCap may not deviate from the Procedures unless it has a documented compelling purpose to do so.
2. Voting Discretion. In all cases, the Proxy Administrator will exercise its voting discretion in accordance with the voting philosophy of the selected guideline. In cases where a proxy is forwarded by ISS to the Proxy Administrator, the Proxy Administrator may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by ISS, portfolio manager or research analyst with knowledge of the issuer and its securities (collectively "Portfolio

Management”) or other independent sources; or (ii) information provided by company managements and shareholder groups. WellsCap believes that input from Portfolio Management is essential in the decision-making process for providing recommendations to proxy voting matters. Portfolio Management is, in WellsCap’s view, best able to evaluate the impact that the outcome on a particular proposal will have on the value of the issues shares. In the event that the Proxy Administrator is aware of a material conflict of interest involving Wells Fargo/WellsCap or any of its affiliates regarding a proxy that has been forwarded to him or her, the Proxy Administrator will, absent compelling circumstances, return the proxy to ISS to be independently voted in conformance with the voting guidelines of ISS.

Voting decisions made by the Proxy Administrator will be reported to ISS to ensure that the vote is registered in a timely manner.

3. Observance of the United Nations Principles of Responsible Investing and International Stewardship Codes. ISS’s Social Advisory Services has a proxy voting guideline that, on matters of social and environmental importance, seeks to reflect a broad consensus of the socially responsible investing community. In addition, ISS’s Sustainability Policy seeks to promote support for recognized global governing bodies encouraging sustainable business practices advocating for stewardship of environment, fair labor practices, non-discrimination, and the protection of human rights. As a signatory of the United Nations-supported Principles for responsible Investment (“UNPRI”) WellsCap has integrated environmental, social, and governance (“ESG”) factors into the proxy processes. Upcoming proxies are viewed through the lens of ISS’s Sustainability guidelines. A recommendation to change the vote to fall in line with the Sustainability policy may be made. These recommendations are reviewed by the Risk team and Proxy Committee.
4. Securities on Loan. As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy).
5. Share Blocking. Proxy voting in certain countries requires ‘share blocking’. Shareholders wishing to vote their proxies must deposit their shares with a designated depository before the date of the meeting. Consequently, the shares may not be sold in the period preceding the proxy vote. Absent compelling reasons, WellsCap believes that the benefit derived from voting these shares is outweighed by the burden of limited trading. Therefore, if share blocking is required in certain markets, WellsCap will not participate and refrain from voting proxies for those clients impacted by share blocking.
6. Voting Restrictions. Where there are proxy voting restrictions applied by country or issuer, such as a required power of attorney and partial share restrictions, WellsCap will vote proxies on a best efforts basis.

7. Conflicts of Interest. WellsCap has obtained a copy of ISS policies, procedures and practices regarding potential conflicts of interest that could arise in ISS proxy voting services to WellsCap as a result of business conducted by ISS. WellsCap believes that potential conflicts of interest by ISS are minimized by these policies, procedures and practices. In addition, Wells Fargo and/or WellsCap may have a conflict of interest regarding a proxy to be voted upon if, for example, in the case where Wells Fargo and/or WellsCap or its affiliates have a significant business relationship with the issuer of the proxy. A conflict of interest is considered to be “material” to the extent that a reasonable person could expect the conflict to influence WellsCap’s decision on the particular vote at issue. WellsCap believes that, in most instances, any material conflicts of interest will be minimized through a strict and objective application by ISS of the voting guidelines. However, when the Proxy Administrator is aware of a material conflict of interest regarding a matter that would otherwise require a vote by WellsCap, the Proxy Administrator shall defer to ISS, as an independent third party, to vote in conformance with the voting guidelines of ISS. In addition, the Proxy Administrator will seek to avoid any undue influence as a result of any material conflict of interest that exists between the interest of a client and WellsCap or any of its affiliates. To this end, an independent fiduciary engaged by Wells Fargo will direct the Proxy Administrator on voting instructions for the Wells Fargo proxy.
8. Regulatory Conflicts/Restrictions. When the Proxy Administrator is aware of regulatory conflicts or restrictions, the Proxy Administrator shall defer to ISS to vote in conformance with ISS’s voting guidelines to avoid any regulatory violations.
9. Vendor Oversight: WellsCap Operations monitors the ISS proxy process against specific criteria in order to identify potential issues relating to account reconciliation, unknown and rejected ballot reviews, upcoming proxy reviews, share reconciliation oversight, etc.

### **III. Other Provisions:**

#### Guideline Review

The Proxy Committee meets at least annually to review this Policy and consider changes to it. Meetings may be convened more frequently (for example, to discuss a specific proxy agenda or proposal) as requested by the Manager of Proxy Administration, any member of the Proxy Committee, or WellsCap’s Chief Compliance Officer. The Proxy Committee includes representation from Portfolio Management, Operations, Portfolio Risk Management and Compliance (Compliance does not vote on the proxies).

#### Record Retention

WellsCap will maintain the following records relating to the implementation of the Procedures:

- A copy of these proxy voting policies and procedures;
- Proxy statements received for client securities (which will be satisfied by relying on ISS);
- Records of votes cast on behalf of clients (which ISS maintains on behalf of WellsCap);
- Records of each written client request for proxy voting records and WellsCap's written response to any client request (written or oral) for such records; and
- Any documents prepared by WellsCap or ISS that were material to making a proxy voting decision.

Such proxy voting books and records shall be maintained at an office of WellsCap in an easily accessible place for a period of six years.

#### Disclosure of Policies and Procedures

WellsCap will disclose to its clients a summary description of its proxy voting policy and procedures via mail. A detail copy of the policy and procedures will be provided to clients upon request by calling 1-800-736-2316.

WellsCap will also provide proxy statements and any records as to how WellsCap voted proxies on behalf its client upon request. Clients may contact WellsCap at 1-800-736-2316 or by e-mail at [riskmgt@wellsfargo.com](mailto:riskmgt@wellsfargo.com) to request a record of proxies voted on their behalf.

Except as otherwise required by law, WellsCap has a general policy of not disclosing to any issuer or third party how its client proxies are voted.

#### **Voting Members of WellsCap Proxy Committee**

Jon Baranko- Director of Equity Investments

John Hockers- Co-Head of Portfolio Risk Management and Analytics

Jessica Mann- Head of ESG

Aldo Ceccarelli- Investment Manager Research Sr Manager

Tom Biver- Investment Manager Research Analyst

Melissa Duller- Investment Manager Research Analyst

Jessica Geary- Portfolio Risk Management and Analytics

Lea Zhu- ESG Investment Product Specialist

Jennifer Vraney- Operations Manager

**Consulting members of WellsCap Proxy Committee (Non-Voting)**

Siobhan Foy- Chief Compliance Officer

Approved by the Proxy Committee: July, 2018

## **INVESTMENT MANAGERS SERIES TRUST PROXY VOTING POLICIES AND PROCEDURES**

Investment Managers Series Trust (the “Trust”) is registered as an open-end investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

### **Delegation of Proxy Voting Authority to Fund Advisors**

The Board believes that the investment advisor of each Fund (each an “Advisor” and, collectively, the “Advisors”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Advisor of each Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Advisor of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, each Advisor shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Advisor shall perform these duties in accordance with the Advisor’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Advisor shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

### **Availability of Proxy Voting Policy and Records Available to Fund Shareholders**

If the Fund or an Advisor has a web site, a copy of the Advisor’s proxy voting policy and this Policy may be posted on such website. A copy of such policies and of each Fund’s proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund’s toll-free telephone number as printed in the Fund’s prospectus. The Trust’s administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Each Advisor shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as advisor, to the Trust’s co-administrator within 30 days after June 30 of each year. The Trust’s co-administrator, MFAC will file a report based on such record on Form N-PX on an annual basis with the Securities and Exchange Commission no later than August 31<sup>st</sup> of each year.
